Dedication of grave..... great-uncle glade smith

A perfect angel spirit, Sent from God above. Her big brown eyes sparkling, Filled with light and love.

Taught us to say "Thank you" and "I love you,"
She touched people throughout the world.

A Flamingo in a flock of pigeons,
This amazing Charlee girl.

She lived this life on her terms,
In her own determined way,
And blessed us with her patient love,
Each and every day.

Her smile and laughter we'll recall, Each time we hear her name. Because Charlee came into this world, It will never be the same. -Grandpa Brian Arnold
