ABOUT THIS PODCAST

Shamans and Angels and Spirit Guides...oh my! For those awakening to the existence of the metaphysical, the multi-dimensional world can get pretty confusing pretty quickly. Kelle Sparta, The Spirit Doctor, understands that. Sit in with Kelle as she shares her years of experience as a shaman, healer, psychic, channel, medium, empath, spiritual coach, and so much more. You will learn and laugh through her unique perspective on this spiritual and magical world.

Who Is This For?

People who are having or have had a Spiritual Awakening & are now walking a spiritual path.

2018-2022 - You're having a spiritual awakening and need help and/or you're seeking to overcome the anxiety, worry, dread, and self-doubt that plagues you. Our podcast has been designed for overachieving empaths who are likely living in the archetype of the Knight in Shining Armor (you love to save people). You get more done in a day than most people get done in a week. You're a perfectionist and a bit of a control freak. You've got a big heart and a NEED to be of service. On the inside, your anxiety is on high alert, but on the outside, you look cool as a cucumber.

2022-Current - You've gotten your feet wet and are now starting to facilitate for others - you're a spiritual practitioner of some sort - healer, coach, spiritual teacher, psychic, medium, channel. We're now talking about how to get your business going, the perils of dealing with clients, how NOT to be a wounded healer, etc.

Episode Types

Kelle has several types of episodes:

Learning Episodes - Where Kelle talks with you about a distinct subject and ties it into all the other things she's talked about in the past (this is why more advanced students love this podcast - she takes every 2-hour class they've ever taken and stitching it all together)

Sound Healing Episodes - Kelle is a gifted sound healer and she will periodically put out a sound healing episode that will knock your socks off. (And she does it all with just her voice.)

Ritual Episodes - Kick-ass rituals to improve your life.

Listener Profiles - Kelle invites listeners to join her to share their personal journeys.

Guest Episodes - When Kelle comes across an expert she respects, she wants to share them with her audience.
