

NAPA's Diamond Paving Commendation Streamlined Renewal Affidavit

The streamlined renewal process is available for two years after the asphalt paving company or branch initially qualifies for NAPA's Diamond Paving Commendation. In the streamlined renewal process, the asphalt paving company or branch must affirm that the paving practices and equipment are substantially the same as in the first year in which the asphalt paving company or branch qualified and must furnish customer verification that high-quality pavements are consistently placed by paving crews. Quality includes the consistency, value, and durability of the asphalt pavement. Two verifications are necessary. They may be from either a public agency or a private owner.

Paving Company Information

District/Regional Office Name

Company / Branch Name

Address

We, the undersigned, do hereby affirm that we have reviewed the nomination form submitted in [] for the above-referenced asphalt paving company or branch, and that practices and equipment are substantially the same as at the time of nomination.
