1 Create artwork in CMYK, any RGB or Pantone colours will be converted to CMYK.

2 Keep critical artwork (images, logos, copy or text) within the 'safe area'.

3 Ensure your background extends to the outer edge of the 'bleed area' (Black solid line / stroke).

4 All linked images must be embedded in to the document or supplied in a separate folder.

5 Artwork and linked images must be a minimum resolution of 300dpi for a good end print.

6 All fonts must be converted to outlines or supplied in a separate folder.

7 Any Pantone colours will be matched to as close as possible but we cannot guarantee an exact match.

8 Save your artwork as PDF, EPS, AI or JPG.

Bleed Size - 823mm x 2268mm
(background colour or image needs to bleed in to this area)
