March 11

God is still on the throne. Here is an update on Doug. Prayer and Praise please:

Friday Doug was quite ill. Lab work indicated jaundice and anemia. He was sent to get a transfusion so his body reacted Friday and Saturday to the blood.

His body is like mine in that regard: Tries to reject anything foreign that is introduced. He had severe chills besides the other symptoms.

Doug will have scans this week (MRI etal). They will be forwarded to KUMC oncologists for evaluation, to determine the status of the cancer metastasis. and if there are treatment options.

He has jaundice but has good courage, although in much pain and starving. He's lost over 45 lbs. We think of the woman in the Bible with the issue of blood. The physicians gave up on her. Short of touching the hem of Jesus' garment (miracle) she was hopeless.... we are prayerfully waiting. Time is in God's Hands. Kumbaya my Lord. We lift our hearts to You
