

# Nothing Is Impossible

## Verse 1

There's a road before us, and it leads up to the clouds.  
And there are days when all is bright, and songs of praise abound.  
But then there come those moments when the dream comes crashing in,  
And when all our broken pieces make us think we'll never win.

## Chorus

***There are jagged heights before us, there are valleys in our way.  
We are small against the problems that confront us every day.  
Yet against the failing record of the path that we have trod,  
Grace has testified that we can learn to ride on wings of God.***

[x2 last time]

***And that nothing is impossible with Heaven on our side.  
Though the floods may rise, above them all on eagles wings we ride.  
There is nothing under heaven, and there's nothing on the earth,  
That can pluck God's treasure from His hands, or change what it is worth.  
For there's nothing that's impossible with God... [Repeat last time]***

## Verse 2

Then we'll face the tempest, and let God increase our faith.  
And as a family we'll learn that in His arms we're safe.  
For a faithful cloud of witnesses have walked this way before,  
And for them, no loss compared to all the things God had in store.
