Dear Jason,

I am pleased to inform you that you have fulfilled all the requirements to become an Upledger Institute Certified CranioSacral Techniques Therapist. You are among an elite group of practitioners who have worked very hard for this recognition. We congratulate you!

To signify your achievement, we will add the initials CST-T after your name. Consistent usage of this abbreviation by you and all similarly certified practitioners will help promote industry recognition of this level of expertise. If you prefer not to add CST-T after your name, please let us know.

We have created a logo that can be used on websites or in printed materials to signify having achieved Certification status. We attached the various forms here for your use.

1. Color or Black/White
2. Logo format for use on the web
3. Logo format for use in print materials

You will also be receiving a packet of additional information in the mail that includes your certificate.

UII requires that each therapist certified in CranioSacral Therapy through the UII certification program

complete 24 hours every four years of UII-approved continuing education. This may be in the form of UII CST courses (participating or assisting), mentor programs, symposiums, research conferences or preceptorships. UII reserves the right to revoke certification for actions deemed inappropriate by the certification ethics committee.

Again, congratulations!

Best Regards,

Edith Stephenson Certification Coordinator/Administration Phone 800-311-9204 or 561-622-4334, ext. 1320 || Fax 561-622-4771
