

Checklist for AAPOR TI

Survey: National Poll

TI Disclosure Elements	Answers
1. Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.	Emerson College
2. The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.	See Below
3. A definition of the population under study and its geographic location.	Likely voters in the US
4. Dates of data collection.	October 25-26, 2020
5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated.	Data was collected using a list of 30,000 landlines provided by Aristotle Inc. with an online panel provided by Amazon Mturk of n=147.
6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.	Aristotle, LLC
7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.	Online panel provided by Amazon MTurk
8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.	See #5
9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.	IVR and Online

<p>10. Sample sizes (by sampling frame if more than one was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non-probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To</p>	<p>The sample consisted of registered voters, n=1,121, with a Credibility Interval (CI) similar to a poll's margin of error (MOE) of +/- 2.8 percentage points. A screening question was asked if the voter was registered and the voting intention. If the respondent said they were not registered or were not voting, they were eliminated from the sample.</p>
<p>avoid confusion, it is best to avoid using the term "margin of error" or "margin of sampling error" in conjunction with non-probability samples.</p>	
<p>11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported.</p>	<p>The data was weighted gender, age, education, race, and region. 2016 vote magnitude was used but new voters were included based on their actual sample and was based on Aristotle Voter turnout modeling</p>
<p>12. If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. Reviewer: Type NA if not applicable.</p>	<p>N/A</p>
<p>13. Contact for obtaining more information about the study.</p>	<p>emersonpolling@emerson.edu</p>

Survey Instrument

1. To start, can you please tell me your gender?
Male
Female

2. Do you approve or disapprove of the job Donald Trump is doing as President?
Approve
Disapprove

Neutral or no opinion

3. What is your party affiliation?

Not registered to vote (end)

Democrat

Republican

Independent or other

4. When it comes to voting in the November election, which of the following best describes your intention?

I do not plan to vote in the election (end)

I already voted

Voting early either by mail or in person (go to 6)

Voting on election day (go to 6)

Not sure how I will vote (go to 6)

5. Who did you vote for?

Donald Trump (go to 9)

Joe Biden (go to 8)

Someone else (go to 10)

6. If the Presidential Election were held today, would you vote for Donald Trump or Joe Biden?

Donald Trump (go to 9)

Joe Biden (go to 8)

Someone else (go to 10)

Undecided (go to 7)

7. Which candidate are you leaning towards at this time?

Donald Trump (go to 9)

Joe Biden (go to 8)

8. How excited are you to support Joe Biden?

Extremely excited (go to 10)

Very excited (go to 10)

Mildly excited (go to 10)

Not that excited (go to 10)

9. How excited are you to support Donald Trump?

Extremely excited

Very excited
Mildly excited
Not that excited

10. When did you make up your mind about who to support for President?

I haven't made up my mind yet
In the last week
In the last month
Over one month ago

11. Who did you vote for in the 2016 election?

Donald Trump
Hillary Clinton
Someone else
Did not vote

12. For statistical purposes only, can you please tell me your ethnicity?

Hispanic or Latino of any race
White or Caucasian
Black or African American
Asian-American or Pacific Islander
Other or multiple races

13. What is your age range?

18-29 years
30-44 years
45-64 years
65 or more years

14. What is the highest level of education you have attained?

High school or less
Some college
College graduate
Postgrad or higher

15. Please select the type of area where you live

Urban/city
Suburban
Rural

16. When deciding for whom you will vote for President, which of the following is the most important issue?

Climate change

Social justice

The economy

Supreme Court

COVID-19 response

Healthcare

Something else

17. How much of a threat to public health in the United States do you believe Coronavirus is?

Major threat

Moderate threat

Minor threat

Not a threat

18. Regardless of who you are going to vote for, who do you expect to win the Presidential election?

Joe Biden

Donald Trump

Unsure

19. Who do you think is more of a patriot, Joe Biden or Donald Trump?

Joe Biden

Donald Trump

20. What state do you live in?

Alabama

Alaska

Arizona

Arkansas

California

Colorado

Connecticut

Delaware

Florida

Georgia

Hawaii

Idaho

Illinois

Indiana
Iowa
Kansas
Kentucky
Louisiana
Maine
Maryland
Massachusetts
Michigan
Minnesota
Mississippi
Missouri
Montana
Nebraska
Nevada
New Hampshire
New Jersey
New Mexico
New York
North Carolina
North Dakota
Ohio
Oklahoma
Oregon
Pennsylvania
Rhode Island
South Carolina
South Dakota
Tennessee
Texas
Utah
Vermont
Virginia
Washington
West Virginia
Wisconsin
Wyoming
Washington D.C.
