

Wild Orange & Vanilla Sugar Scrub

1/4 cup Coconut Oil

(Type used in cooking; in a solid state)

1/2 cup White Sugar

1/2 cup Sugar in the Raw

1 teaspoon Vanilla

(Type used in cooking)

10 Drops Wild Orange Essential Oil

Whip coconut oil with a mixer until fluffy. Add vanilla and wild orange essential oil. Mix until combined. Add sugars. Mix until combined. Store in closed glass container.

If someone doesn't have essential oils, they can substitute orange extract for the wild orange essential oil or leave it out completely. (It is mostly for the scent.) The scrub can also be used as an exfoliating lip scrub. If it is made with orange extract, you can just lick it off your lips!
