

NAPA's Diamond Quality Commendation Streamlined Renewal Affidavit

Diamond Quality
Commendation

The streamlined renewal process is available for two years after the plant initially qualifies for NAPA's Diamond Quality Commendation. In the streamlined renewal process, the asphalt pavement material producer must affirm that the plant and processes are substantially the same as in the first year in which the plant qualified, and must furnish customer verification that high-quality products were delivered from this plant. Quality includes the consistency, value, and durability of the asphalt pavement material. Two verifications are necessary. They may be from either a public agency or a private owner.

Plant Information

Plant Name and Location

Plant Owner (Name and Address)

We, the undersigned, do hereby affirm that we have reviewed the nomination form submitted in [] for the above-referenced plant/site, and that it is in substantially the same condition as it was at the time of nomination.
