

Multi-Layered Programmable Blockchain
For High Volume Transactions

ABEY.COM

The logo for neurothink features the word 'neurothink' in a white, lowercase, sans-serif font. A small 'TM' trademark symbol is located at the top right of the word. The background of the slide is a dark blue gradient with a complex network of white lines and dots, resembling a neural network or a data visualization.

Machine Learning.
Radically Accessible.

NEUROTHINK.IO

Executive Team

Brian Rogers, CEO

Charles Donly, SVP

ABEYCHAIN 2.0 is a completely new generation of blockchain technology.

ABEYCHAIN 2.0 uses a Hybrid Consensus –

A multi-layered blockchain system incorporating:

- Delegated Proof Of Stake (DPoS), and
- the Proof of Work Consensus (PoW) to support ultra high-volume transactions.

ABEY aims solve the biggest problem confronting permissionless blockchains today: the trade-off between decentralization, security and efficiency.

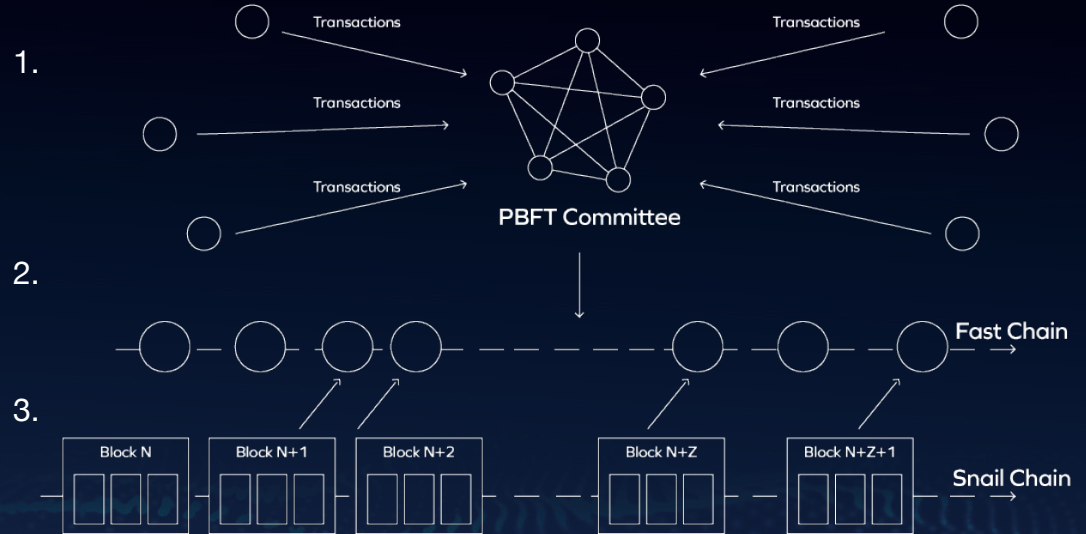

ABEYCHAIN 2.0: Blazing speed

- PBFT Community
- Fruit Chain (Fast Chain)
- Snail Chain (Slow Chain)

Current 10,000 TPS / Future 150,000 at peak performance

1. PBFT Committee validates transactions 5 sec/block 100s of transactions
2. Record of these validated transactions are stored as Fruit.
3. PoW validates signatures and hash of Fruit 10 minutes

Cross-Chain Interoperability

- Public blockchains must be interconnected to thrive. ABEYCHAIN 2.0 was created with this in mind.
- Assets on other chains can be smoothly transferred onto or through ABEYCHAIN 2.0 without delay.
- More assets are lined up to be tokenized on the ABEYCHAIN.

Application Scenarios

Stable
Token

Smart
Contracts

Decentralized
Storage

DeFi with
 SWAP

NFT
Marketplace

aCash (ACT)

ACT (aCash) is the official stablecoin of the ABEYCHAIN ecosystem. ACT is a stable token with a 1:1 parity to USDT.

ACT is minted when it is purchased with mainstream cryptocurrencies such as BTC, ETH, BCH and LTC, and burned when it is “cashed out” of the system. Apay Payment services supports conversion of ACT to USDT.

Smart Contract

- Easy to create
- Feature robust
- Low gas fees

The ABEY Storage Network (ASN)

- Alternative data storage solution for the IPFS network
- New incentive layer on the IPFS network
- Rewards in AST (ABEY Storage Token)

Meets all strict IPFS storage requirements (no fines)

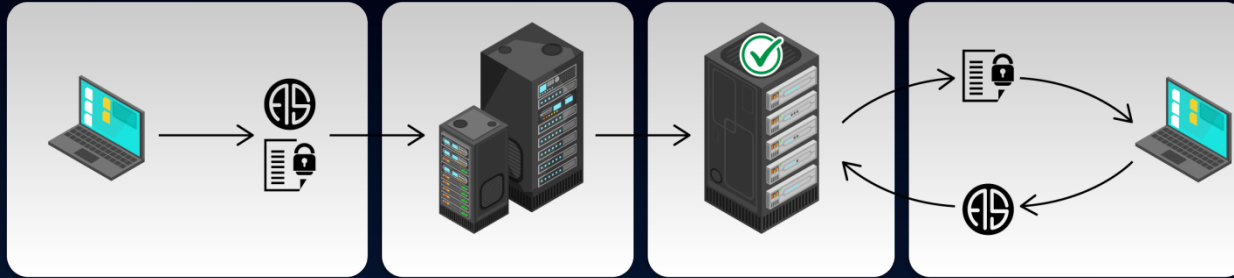

The ABEY Storage Network (ASN)

- Equipment and easy-to-use application provided
- Meets strict IPFS storage requirements (no fines)
- AST has 100% parity with Filecoin, traded at same price (1:1)

100% liquidity

AST Marketplace

1. User pays miner to store data
2. Miner commits data – Network validates
3. User pays miner to retrieve data

Rewards in AST

SWAP

- Developer friendly DeFi platform
- Feature rich
- Multi-chain / Multi-wallet support.

Music.Net (NFT)

- Music industry focused
- Artist / Musician friendly
- Music labels / industry professionals

INTRODUCING

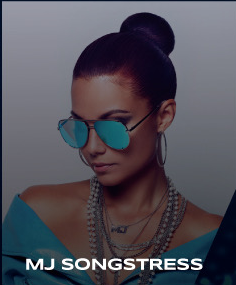

MUSIC.NET

Music.Net, powered by ABEYCHAIN 2.0 with neurothink Technology, is the all-new exclusive music industry focused NFT marketplace and trading platform.
