## **Checklist for AAPOR TI**

## **Survey:** Boston Preliminary Mayoral Poll

TI Disclosure Elements	Answers
Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.	Emerson College
The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.	See Below
3. A definition of the population under study and its geographic location.	Likely Voters in Boston
4. Dates of data collection.	August 23-24, 2021
5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated.	Data was collected using a list of 10,000 mobile numbers and 20,000 landlines provided by Aristotle Inc.
6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.	Aristotle, LLC
7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.	
8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.	See #5
9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.	IVR, online, and SMS-to-web

10. Sample sizes (by sampling frame if more than on was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non- probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To avoid confusion, it is best to avoid using the term "margin of error" or "margin of sampling error" in conjunction with non-probability samples.	The sample consisted of registered voters, n=600, with a Credibility Interval (CI) similar to a poll's margin of error (MOE) of +/- 3.9% percentage points.  A screening question was asked if the voter was registered and likely to vote. If the respondent said they were not registered or not likely to vote, they were eliminated from the sample.
11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported.	The data was weighted by age, gender, education, race, party affiliation, 2017 vote, and region based on 2021 voter turnout modeling.
12. If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. Reviewer: Type NA if not applicable.	N/A
13. Contact for obtaining more information about the study.	emersonpolling@emerson.edu

Yes, I have rece	eived one dose (go to 3) eived two doses (go to 3) received any doses of a COVID-19 vaccine (go to 2)
	Now that the FDA has granted full approval to the Pfizer COVID vaccine, do you plan to get vaccinated?
Yes (go to 4)	
No (go to 4)	
Unsure (go to 4	
3. I Yes No Unsure	If a booster shot to the COVID-19 vaccine becomes available, will you take it?
	What is your party registration?
Not registered t	o vote (end)
Democrat	
Republican	oth or
Independent or	oulei
5. I Very likely	How likely are you to vote in the upcoming election for Mayor of Boston?
Somewhat likel	V
Not that likely (	
Not at all likely	(end)
6. I	For the September preliminary election, how do you plan on voting?
Vote early in-pe	
Vote early by m	
Vote in-person	
Not sure how I	will vote
	How excited are you to vote in this election?
Very excited	
Somewhat excit	
Not very excite	d

Not at all excited

1. Have you received at least one dose of a COVID-19 vaccine?

8. If the mayoral election were held today, who would you vote for?
Annissa Essaibi George
Richard Spagnuolo
Andrea Campbell
Kim Janey
Michelle Wu
Jon Santiago
Richard Cappucci
John Barros
Don't know/undecided (go to 10)
Someone else
9. How excited are you to support your chosen candidate?
Very excited
Somewhat excited
Not very excited
Not at all excited
10. When deciding for whom to vote for mayor, which of the following is the most important issue?
(randomized)
Housing
Healthcare
Jobs
Crime
Covid-19
Police reform
The environment
Education/Schools
Transportation
Something else (please specify)
11. How concerned are you about the threat of the Delta variant of Covid-19?
Very concerned
Somewhat concerned
Not too concerned
Not at all concerned
12. Do you agree or disagree with the following statement: All large public venues such as concert halls
and stadiums should require proof of vaccination

Agree
Disagree
Unsure or no opinion

13. Do you agree or disagree with the following statement: Shops, restaurants, and offices should require proof of vaccination

Agree

Disagree

Unsure or no opinion

14. Do you agree or disagree with the following statement: Businesses have the right to require that their employees get vaccinated

Agree

Disagree

Unsure or no opinion

15. Can you please tell me your gender?

Male

Female

16. For statistical purposes only, can you please tell me your ethnicity?

Hispanic or Latino of any race

White or Caucasian

Black or African American

Asian American or Pacific Islander

Other or multiple races

17. What is your age range?

18-29 years

30-44 years

45-64 years

65 or more years

18. What is the highest level of education you have attained?

High school or less

Some college

College graduate

Postgrad or higher

19. Who did you vote for in the 2017 Boston Mayoral election?

Marty Walsh

Tito Jackson

Not sure

Did not vote

## 20. What neighborhood in Boston do you live in?

East Boston

Charlestown

South Boston

Central (Chinatown, Downtown, West End & North End)

Back Bay- Beacon Hill

South End

Fenway-Kenmore

Allston/Brighton

Jamaica Plain

Roxbury

North Dorchester

South Dorchester

Mattapan

Roslindale

West Roxbury

Hyde Park

Harbor Islands
