

We are Sick of Plastic and we want Supermarkets to **PLEASE** take these actions...

- P**rice loose items competitively vs packaged items
- L**ead the way by making your own brand packaging reusable, recyclable or compostable
- E**nsure your suppliers use less plastic
- A**llow us to use our own containers
- S**upply dry goods and cleaning products in bulk to reduce packaging
- E**liminate plastic bags for loose produce and breads

We are demanding Supermarkets make it easy for us to reduce our plastic waste by adopting these measures.

Please sign the Sick of Plastic petition to urge Supermarkets, producers and decision makers to **#BreakFreeFromPlastic!**

**And don't forget to #ShopAndDrop!**
