

## Checklist for AAPOR TI

### Survey: Minnesota Pre-election poll

TI Disclosure Elements	Answers
1. Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.	<b>Emerson College</b>
2. The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.	<b>See Below</b>
3. A definition of the population under study and its geographic location.	<b>Likely Voters in Minnesota</b>
4. Dates of data collection.	<b>August 8-10, 2020</b>
5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated.	<b>Data was collected using a list of 15,000 mobile numbers provided by Aristotle Inc. which accounted for n=642 and an online panel provided by Amazon Mturk of n=91.</b>
6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.	<b>Aristotle, LLC Amazon MTurk</b>
7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.	<b>SMS-text to web Online panel</b>
8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.	<b>See #5</b>
9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.	<b>Mobile phones and online web survey</b>

<p>10. Sample sizes (by sampling frame if more than one was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non-probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To avoid confusion, it is best to avoid using the term “margin of error” or “margin of sampling error” in conjunction with non-probability samples.</p>	<p>The sample consisted of registered voters, n=642 , with a Credibility Interval (CI) similar to a poll’s margin of error (MOE) of +/- 3.6% percentage points.</p> <p>A screening question was asked if the voter was registered and the voting intention. If the respondent said they were not registered or were not voting, they were eliminated from the sample.</p>
<p>11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported.</p>	<p>The data was weighted by gender, age, education, party affiliation, race and region based on 2016 voter turnout modeling. 2016 vote magnitude was used but new voters were included based on their actual sample (1.9%) and was based on Aristotle Voter turnout modeling</p>
<p>12. If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. <b>Reviewer: Type NA if not applicable.</b></p>	<p>N/A</p>
<p>13. Contact for obtaining more information about the study.</p>	<p><a href="mailto:emersonpolling@emerson.edu">emersonpolling@emerson.edu</a></p>

## Survey Instrument

1. To start, can you please tell me your gender?

Male

Female

2. Do you approve or disapprove of the job Donald Trump is doing as President?

Approve

Disapprove

Neutral or no opinion

3. Do you approve or disapprove of the job Tim Walz is doing as Governor?

Approve

Disapprove

Neutral or no opinion

4. What is your party affiliation?

Not registered to vote (end)

Democrat

Republican

Independent/other

5. When it comes to voting in this year's election, which of the following best describes your intention?

I do not plan to vote in the election (end)

Not sure how I will vote

Vote in person

Vote by mail

6. If the Presidential Election were held today, would you vote for Donald Trump or Joe Biden?

Donald Trump (go to 8)

Joe Biden (go to 8)

Undecided

7. Which candidate are you leaning towards at this time?

Donald Trump

Joe Biden

8. If the election for US Senate was being held today, for whom would you cast your vote?

Democrat Tina Smith

Republican Jason Lewis

Undecided

9. If the General Election for U.S. Congress were being held today, for whom would you vote or lean towards voting in the district where you live?

Democratic Party Candidate

Republican Party Candidate

Unsure

10. Who did you vote for in the 2016 election?

Donald Trump

Hillary Clinton

Someone else

Did not vote

11. For statistical purposes only, can you please tell me your ethnicity?

Hispanic or Latino of any race

White or Caucasian

Black or African American

Asian

Other or multiple races

12. What is your age range?

18-29 years

30-49 years

50-64 years

65 or more years

13. What is the highest level of education you have attained?

High school or less

Some college

College graduate

Postgrad or higher

14. Please select the type of area where you live

Urban/city

Suburban

Rural

15. Would you support or oppose a national mandate for all individuals to wear masks in public where social distancing is not possible?

Support

Oppose

Unsure or no opinion

16. In your opinion, should K-12 schools open in person considering the coronavirus epidemic?

Yes  
No  
Unsure

17. Do you think that learning online is equivalent to, better than, or worse than learning in person for students aged K-12?

Learning online is equal to learning in person  
Learning online is better than learning in person  
Learning online is worse than learning in person

18. Should President Trump require that all K-12 schools in the country hold classes online in the fall?

Yes  
No  
Unsure

19. Has the COVID-19 Pandemic made you more or less likely to vote for President Trump?

More likely  
Less likely  
No difference

20. Do you trust political polling more or less than you did in 2016?

More  
Less  
No difference

21. Are you better or worse off financially today than you were 4 years ago?

Better off  
Worse off  
About the same

22. Generally speaking, when it comes to leadership would you say women generally have a better approach, or men generally have a better approach?

Women have a better approach  
Men have a better approach  
Unsure

23. Would you ride in a driverless car?

Yes  
No

24. What congressional district do you live in?

1st district: Rep. Jim Hagedorn (R)

2nd district: Rep. Angie Craig (DFL)

3rd district: Rep. Dean Phillips (DFL)

4th district: Rep. Betty McCollum (DFL)

5th district: Rep. Ilhan Omar (DFL)

6th district: Rep. Tom Emmer (R)

7th district: Rep. Collin Peterson (DFL)

8th district: Rep. Pete Stauber (R)
