### PERMISSION FOR STUDENT USE OF INTERNET / EMAIL

Access to e-mail and the Internet will enable students to explore thousands of libraries, databases, museums and other repositories of information and to exchange personal communication with other Internet users around the world. Students will be allowed access to Internet resources with the understanding that some material can be inaccurate, biased; controversial therefore inappropriate for classroom use and not be permitted. Families should be aware that some material accessible via the Internet may contain items that are illegal, defamatory or potentially offensive. While the purposes of the school are to use Internet resources for constructive educational goals, students may find ways to access other materials. We believe that the benefits to students from access to the Internet in the form of information resources and opportunities for collaboration exceed the disadvantages. But ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. Therefore, we support and respect each family’s right to decide whether or not to apply for access.
