

## David's Cookie Dough Fundraiser

8<sup>th</sup> Grade is raising money for our class trip and graduation.  
But we need your help to get the most orders we can.

### What's in it for you?

The class that sells the highest percentage of boxes of cookie dough will get a pizza party.  
(Percentage = Number of cookie dough boxes sold ÷ Number of students in the homeroom class)

### Our Goal

Our goal is to sell **300** boxes of cookie dough. With 92 students, that is an average of 3 boxes per student. Anyone can sell 3 boxes, right?

If we surpass our goal and sell **500** boxes, the **WHOLE** school will get a pizza party with all the fixings. **FREE LUNCH!!!**

To reach this goal, everyone needs to sell about 5-6 boxes each.

### Collection Directions

Your sales booklet has an order form on the back. Make sure you write the customer's name and phone number. If you need to remember where they live, write down their address too.

Next, write down the quantity of each type of cookie dough the customer is ordering in the correct box, add up the total of money to collect, and write the total in the "Amount Paid" column.

Lastly, **COLLECT MONEY!** All money must be collected **BEFORE** you turn in the order form or the order will **NOT** be placed.

### Dates

**Start:** IMMEDIATELY!!!

**End:** Orders are due Friday, September 28.

**Delivery:** Orders should be delivered about two weeks after they are submitted to the company. Orders will be sent home with the students the day they arrive, so be prepared to deliver them or store them for your customers.
