

Mrs. Hagan's School Supply List

2020-2021

In order to make sure your student gets all the right school supplies they need, I will be buying the school supplies for your child. The cost will be \$40 per student to cover everything. This needs to be paid to me by registration, so I can purchase supplies in a timely manner.

The one thing they will need is their own Bible that they can mark important verses in. The version we use in our class is the **New Living Translation (NLT) version of the Bible**. Christian Book Distributors has hardback versions on this (look for "pew Bible") for only \$12. It is so nice for students to have their own Bible so they can mark the important verses that we will be learning this year. The Bible is our only textbook for Bible class, so we will be using it a lot.

All other supplies will be covered by the \$40 supply fee.
