FINANCIAL REVIEW - AUSTRALIA'S FAST STARTERS 2020

Dear Sir/Mdm,

Please find enclosed a certificate issued by The Australian Financial Review and Statista, distinguishing your company as part of Australia's Fast Starters 2020. Congratulations!

Through this ranking, we wanted to identify the enterprises that contribute most to economic growth. We made sure that only companies of a certain size could qualify for the list and that their revenue increases were generated overwhelmingly by organic growth, over a period of several years. Few candidates met these strict criteria, yours did. As a result, your company stands out in a very dynamic region with thousands of active companies in Australia.

We dedicated a Special Report to all awarded companies. This article was published in the Financial Review newspaper on March 23rd. The list of all the companies that made it into the ranking is printed in full in this supplement.

A good track record is not necessarily a recipe for future success, yet our research for this ranking indicates that you have what is essential for an enterprise: strong, organic and sustainable growth.

Later in 2020, we will start the call for the next round – the 2021 list. While it might not be easy to secure a place in the ranking more than once, you should certainly try and register again.

If you have any further questions or comments on this, do not hesitate to contact us - via Lawrence Ho (Lawrence.ho@statista.com).

Once again, congratulations on this outstanding achievement and all the best for the future.

Kind regards,

Joanne Gray

FINANCIAL REVIEW
FAST STARTERS 2020

IN COOPERATION WITH **statista** 

Certificate

The Australian Financial Review and Statista

Hereby recognise

Residential Connections Pty Ltd

as one of

Australia's FAST STARTERS 2020

Criteria for inclusion in the ranking:

Revenue of at least \$A 500,000 generated in the FY 2019.

The company has started trading after 1 July 2015.

The company is not a subsidiary or branch office of any kind.

The company is headquartered in Australia.

The revenue growth since 2015 was primary organic, ie „internally“ derived.
