In Loving Memory

Sheryl L. Peterson

1959-2021

November 10th our world changed. Our sister, Our mom, Our friend

Left this world, and she was a force of nature.

Dorian "Grandson" said he wanted to invent a time machine

And save her because that type of change wouldn't

Create a massive disruption in the pattern of the

World— she wasn't going to invent something

revolutionary or grow up in power and incite war etc...

but I am not so sure.

Sheryl left a crater on this earth.

She was the most beloved and emotionally

Charged and strong willed, fun loving, god fearing,

Laugh-so-loud-the-world-knows,

"love harder that anyone I know" woman.

She was an entire universe in a body that was giving out.

Lisa and Marie got the awesome honor of holding

Sheryl until she passed. She gave them life, and they held her until the
end of hers.

We don't know if we will ever find the right words, but

We are so grateful for her life.

So many beautiful years - Marie Moeckel
