BUSINESS FRANCE

Business France is the national agency supporting the international development of the French economy, responsible for fostering export growth by French businesses, as well as promoting and facilitating international investment in France.

It promotes France's companies, business image and nationwide attractiveness as an investment location, and also runs the VIE international internship program.

Business France has 1,500 personnel, both in France and in 58 countries throughout the world, who work with a network of partners.

Since January 2019, as part of the reform of the state support system for exports, Business France has given private partners responsibility for supporting French SMEs and mid-size companies in the following markets: Belgium, Hungary, Morocco, Norway, the Philippines and Singapore.

For further information, please visit: www.businessfrance.fr @businessfrance.fr

ABOUT LA FRENCH TECH

La French Tech is France's startup movement, powered by its ecosystem and bolstered by its government. They bring together these two radically different worlds bound by a single mission: make France a great home for global mission-driven tech champions.

President Macron set the objectives: 25 unicorns by 2025, but not at the price of inclusion, gender equality and the planet.

At the grassroots level, La French Tech is brought alive by its 15,000 startups and its growing network of 114 entrepreneurial communities around the globe. They strive to promote a culture of giving back and openness, while propelling the French startup scene forward both locally and internationally.

To know more about this initiative:

www.lafrenchtech.com/en

Follow us on Twitter: @lafrenchtechEN

ENTREPRENEUR IS A FRENCH WORD

- Record of fundings for French start-ups in 2021 : €10B raised
- Station F: World's biggest start-up campus with adapted programs for entrepreneurs
- Only 3.5 days required to found a company in France (versus 4.5 in UK and 8 in Germany)
- Tailor-made procedures to obtain residence permits for startup founders, employees and investors (French Tech Visa)
- 1st in Europe for R&D tax incentives and effective corporate tax rate on R&D operations
- 164,000 Engineers and 70,000 PHD Students are trained every year
- Top Tech Talent in a country that produces many of the world's Field Medalists (13 out of 55)
- The French Tech 12 & The Next 40: a unique program that honors the French Tech champions
- 20,000 start-ups in France, including the birth of 26 unicorns

Jacqueline PISTOULET, Marketing / Communication & E-Business Director
Ph.: +33 (0)4 67 55 29 69
jpistoulet@sofigroupe.com

SPOCONLINE

5B61 - 25

www.spoconline.fr

Our project literally allows us to have the state of health of the city. It consists of a platform allowing its users to receive and transmit, in real time, information in all fields (from culture to community life, including traffic or good addresses). It also enables local authorities and companies to provide information on the city's activities, services and events. The platform is equipped with a number of sensors that enable it to monitor many aspects of citizens' daily lives. Finally, the platform can be used to calculate indices: quality of life, economic activity, etc.

Stéphane SELBONNE,
stephane.selbonne@spoconline.fr

SMARTVISER

5B41 - 20

www.smartviser.com

Smartviser offers several innovative testing and validation solutions for mobile network operators and smartphones manufacturers. The breakthrough innovation that we propose is based on the concept of virtual users. The virtual user is an embedded application in the terminal that replicates the behavior and actions of a real user and, at the same time, allow to control and measure different indicators and parameters to evaluate and characterize the performance of terminals and networks in static mode or mobility.

Thierry LE BIHAN, Business Developer
