Checklist for AAPOR TI

Survey: New Hampshire Pre-election poll

TI Disclosure Elements	Answers
1. Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.	**7 News/Emerson College**
2. The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.	**See Below**
3. A definition of the population under study and its geographic location.	**Democratic Primary Voters in New Hampshire**
4. Dates of data collection.	**January 31-February 2, 2020**
5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This many include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated.	**Aristotle voter file of 236,286 registered voters with landlines, and a random sample of 15,000 of landlines drawn. The online sample was of 207 registered voters supplied by Dynata and MTurk**
6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.	**Aristotle, LLC** **MTurk** **Dynata**
7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.	**MTurk uses opt in panels and not online ads to recruit participants**
8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.	**See #5**
9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.	**IVR, Online**

10. Sample sizes (by sampling frame if more than on was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non- probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To avoid confusion, it is best to avoid using the term "margin of error" or "margin of sampling error" in conjunction with non-probability samples.	**The sample consisted of registered voters, n= 500, with a Credibility Interval (CI) similar to a poll's margin of error (MOE) of +/-4.3 % percentage points.** **A screening question was asked if the voter was registered and the voting intention. If the respondent said they were not registered or were not voting, they were eliminated from the sample.**
11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported.	**The data was weighted gender, education, age, and region. 2016 caucus vote magnitude was used but new voters were included based on their actual sample (11.1%) and was based on Aristotle Voter turnout modeling**
12. If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. ***Reviewer: Type NA if not applicable.***	**N/A**
13. Contact for obtaining more information about the study.	**emersonpolling@emerson.edu**

New Hampshire Daily Tracking Survey (Online)

1. To start, can you please tell me your gender?

Male

Female

2. What is your party registration?

Democrat

Republican (end)

Independent/other
Not registered to vote (end)

3. How likely are you to vote in the Democratic Primary on February 11th?
Voting in a different primary (end)
Not Likely (end)
Somewhat Likely
Very Likely
Unsure (end)

4. Of the following Democratic candidates for President, who would you be most likely to support? (randomized)
Deval Patrick
Joe Biden
Bernie Sanders
Elizabeth Warren
Pete Buttigieg
Andrew Yang
Amy Klobuchar
Tulsi Gabbard
Tom Steyer
Michael Bennet
Someone Else

5. Regardless of who you're going to vote for, who do you think is going to be the Democratic nominee? (randomized)
Deval Patrick
Joe Biden
Bernie Sanders
Elizabeth Warren
Pete Buttigieg
Andrew Yang
Amy Klobuchar
Tulsi Gabbard
Michael Bennet
Tom Steyer
Michael Bloomberg

6. Who did you vote for in the Democratic Primary in 2016?
Hillary Clinton
Bernie Sanders
Someone Else

Did not vote in this primary

7. For statistical purposes only, can you please tell me your ethnicity?
Hispanic or Latino of any race
White or Caucasian
Black or African American
Asian
Other or multiple races

8. What is your age range?
18-29 years
30-49 years
50-64 years
65 or more years

9. What is the highest level of education you have attained?
High school or less
Some college
College graduate
Postgrad or higher

10. Which of the following political ideologies do you most identify as?
Very Liberal
Somewhat Liberal
Moderate
Somewhat Conservative
Very Conservative

11. What congressional district do you live in?
https://upload.wikimedia.org/wikipedia/commons/thumb/2/26/New_Hampshire_Congressional_Districts%2C_113th_Congress.tif/lossless-page1-250px-New_Hampshire_Congressional_Districts%2C_113th_Congress.tif.png
District 1: Rep. Chris Pappas (D)
District 2: Rep. Ann McLane Kuster (D)

12. Do you think the Iowa Caucus results will impact who you vote for in the Democratic Primary
The Iowa Caucus results will probably impact who I vote for in the Democratic Primary
The Iowa Caucus results will probably not impact who I vote for in the Democratic Primary

13. In selecting a presidential nominee for the Democratic Party, which of the following is most important to you: a candidate with the best chance to defeat Donald Trump or a candidate who comes closest to your views on issues?
A candidate with the best chance to defeat Donald Trump

A candidate who comes closest to your views on issues
