Acceptable Use Description

The *Cedarbrook Adventist Christian School (CACS)* is pleased to offer students access to the school's information technology resources, including the computer and Internet, for educational purposes. To gain access to these resources, the legal parent/guardian and student must sign and return or email this form to the school.

The Internet is a powerful resource for expanding the educational experience of each student. Access to the Internet will enable students to explore thousands of libraries, databases, and bulletin boards while exchanging messages with internet users throughout the world. Unfortunately, it is true that some materials accessible via the Internet may contain items that are illegal, defamatory, inaccurate, or offensive. CACS believes, however, that with ardent supervision and appropriate security software, the benefits to students in the form of information resources and opportunities for collaboration exceed any disadvantages and, therefore, choose to make the Internet available to our students. But because parents and guardians are ultimately responsible for setting and conveying the standards that their children should follow when using media and information sources, CACS respects each family's right to decide whether or not to apply for access.

CACS' information technology resources are for educational purposes only. Since they are provided for students to conduct research and appropriately monitored communication with others, access is given to students who agree to act in a considerate and responsible manner. Parental permission is required. Access is a privilege—not a right. Access entails responsibility. School staff may review files and communications to maintain system integrity and ensure that users are using the system responsibly.
