Dad

*When the angels came to get you,
They took along a piece of us all.
So while you're looking down from heaven,
Don't let your teardrops fall.*

*'Cuz you raised us good, you raised us proud,
Our head will stay high,
Our hearts will ache, tears will fall,
But this is not good bye.*

*Your body may have left us,
Your spirit never will,
We are who we are because of you,
Our memories with you will never stay still.*

*Your legacy will go on forever
Through the children's actions, words and
ways.*

*Your soft heart, strong will, and talents
You've passed to us along the way.*

*Dad, continue watching over us,
We will miss you night and day
But go now, Dad, to be with your parents,
We will meet you there someday.*
