Hello to all you great Biomedx attendees. Hope most of you are back home and starting to use all the new things that were presented to you.

It really was a pleasure to have the opportunity to work with you. Steve, Linda, and myself feel so blessed for this opportunity.

Thank you for all the sharing of information and experiences. May you have success in your ventures and lots of blessings.

Prayers for (son) Ethan and whoever else may need prayers. My friend is hanging in there and goes up and down, but her pain is better at times - thanks for your concerns. And thank you, Eva, for your expertise and time you gave.

I will probably start "bombarding" you with information on the upcoming webinars when I have time, and if there was anything I promised to anyone, please remind me.

Take care, Nancy
