Adventist World Radio

Maria had hit rock bottom. After escaping an abusive marriage, she eventually found love again with a kind policeman. But then the unthinkable happened and she and her husband were ambushed during a drive-by shooting. Her husband shielded her with his body. She survived; he didn't. Her anguish became unbearable. She succumbed to depression and even turned to séances.

One day, her sister forwarded her an AWR360° cell phone sermon about the state of the dead. She became convicted about the Bible truth and prayed for forgiveness. That Sabbath, she walked into an Adventist church with her children, and has attended ever since.

But the Lord wasn't done with her. She wanted to reach others with the Three Angels' Messages. Incredibly, she forgave both her abusive first husband, and her second husband's killers, and started sending them cell phone sermons. They now listen every week.

This is just the tip of the iceberg. Hundreds of thousands of people are regularly listening to AWR360° cell phone sermons, and that number continues to grow worldwide. Adventist World Radio is reaching where missionaries cannot go, transforming lives for eternity. Thank you for supporting the World Budget, which makes stories like this one possible.
