Checklist for AAPOR TI

Survey: New York Congressional Primary Poll (May 2022)

TI Disclosure Elements	Answers
1. Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.	**Emerson College** **Nexstar Media**
2. The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.	**See Below**
3. A definition of the population under study and its geographic location.	**New York 10th and 12th District Democratic primary likely voters**
4. Dates of data collection.	**May 24-25, 2022**
5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated.	**Data was collected using a multi-stage probability sample of 65,647 landlines provided by L2 and a list of 10,000 mobile numbers.**
6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.	**Aristotle, LLC** **L2**
7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.	**N/A**
8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.	**See #5**
9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.	**IVR & SMS-to-web**

10. Sample sizes (by sampling frame if more than on was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non- probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To avoid confusion, it is best to avoid using the term "margin of error" or "margin of sampling error" in conjunction with non-probability samples.	**The 10th District sample consisted of somewhat or very likely Democratic voters, n=500, with a margin of error (MOE) of +/- 4.3 percentage points.** **The 12th District sample consisted of somewhat or very likely Democratic voters, n=500, with a margin of error (MOE) of +/- 4.3 percentage points.**
11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported.	**The data was weighted by gender, age, education, race, and region based on 2022 turnout modeling**
12. If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. ***Reviewer: Type NA if not applicable.***	**N/A**
13. Contact for obtaining more information about the study.	**emersonpolling@emerson.edu**

NY10 Poll

1. Do you approve or disapprove of the job that Eric Adams is doing as New York City Mayor?
   Approve
   Disapprove
   Unsure or no opinion

2. What is your party registration?
   Not registered to vote (end)
   Democrat
   Republican (end)
   Independent (end)

3. How likely are you to vote in the June 28th primary for Governor?
   Not at all likely
   Not very likely

Somewhat likely
Very likely

4. How likely are you to vote in the August 23rd primary for US Congress?
Not at all likely (end)
Not very likely (end)
Somewhat likely
Very likely

5. In the Democratic primary for U.S. House District 10, who do you plan to vote for? (randomized)
Bill DeBlasio
Mondaire Jones
Yuh Line Niou
Carlina Rivera
Patrick Dooley
Brian Robinson
Ashmi Sheth
Elizabeth Kim
Undecided

6. Did you approve or disapprove of the job that Bill DeBlasio did as Mayor of New York City?
Approve
Disapprove
Unsure or no opinion

7. How important is it to your vote that a candidate for U.S. House lives in the district they are running in?
Very important
Somewhat important
Not that important
Not at all important

8. How concerned are you about hate crimes in your community?
Very concerned
Somewhat concerned
Not that concerned
Not at all concerned

9. In general, how safe do you feel in your neighborhood?
Very safe
Somewhat safe
Somewhat unsafe
Very unsafe

10. In general, how safe do you feel taking the subway?
Very safe
Somewhat safe

Somewhat unsafe
Very unsafe

11. How would you rate the quality of the public transportation system in your area?
    Excellent
    Good
    Fair
    Poor

12. What do you think is the most important issue facing New York City?
    Healthcare
    Education
    Economy (jobs, inflation, taxes)
    Crime
    Covid-19
    Immigration
    Something else (please specify)

13. For statistical purposes only, can you please tell me your ethnicity?
    Hispanic or Latino of any race
    White or Caucasian
    Black or African American
    Asian
    Other or multiple races

14. What is your age range?
    18-29 years
    30-49 years
    50-64 years
    65 or more years

15. What is the highest level of education you have attained?
    High school or less
    Some college
    College graduate
    Postgrad or higher

16. What is your gender?
    Male
    Female
    Nonbinary or other

17. What is your zipcode?
