

A letter written by Brandon a few years ago. I loved his message about how important the time we have together is.

His artwork was incredible and he often included it in his letters. The artwork on the front is Brandon's as well.

He put his heart and soul into his art. It was a gift.

We will miss Brandon, your laugh, that sly smile, Your heart and soul that was often misunderstood, your willingness to give the very shoes off your feet.
