

4th Grade Supply List (Virtual Learning)

2020-2021

Hello! I am Mrs. Trana and I will be your 4th grade teacher this year. I have created this simplified supply list for the things you will need while you are at home. If you already have some of these items at home, you do not need to purchase additional. I also strongly encourage you to start thinking about where you want your "school" spot to be in your home before the first day of school. Make sure it is in a place where you know you can stay focused and do your very best. I look forward to getting to know each of you!
