

Webinar: Accidentology and risk assessment

VD 000172

© 2017 - Petzl Distribution - Lafouche

- ▶ Prerequisites:
None
- ▶ Duration:
90 min
- ▶ Documents provided:
Certificate of attendance

▶ Contents

- Understanding basic concepts: hazard, risk...
- Identifying contributing factors in accidents

▶ Why this training?

Risk assessment is an essential part of vertical activities.
It is important to be trained in order to use, demonstrate, sell or give advice on PPE...

▶ For whom?

- Professionals (independent or employees), association leaders
- Trainers of people using PPE
- Technical sales reps, product testing organizers...
- Dealers
- PTI - PTP

▶ Goals:

- The human factor: understanding the psychological aspects of risk-taking and how we naturally tend to engage in risky behavior
- Accidental trajectory and safety "locks"
