PEDIATRIC NURSING  
CERTIFICATION BOARD

---

### Your PNCB Wallet Card

The wallet card provided below represents your status as a Certified Pediatric Nurse Practitioner - Primary Care. In order to maintain your certification, you will need to enroll in the PNCB's Recertification Program annually between November 1 and January 31 prior to the expiration date printed on your card.

You may print out this document for your records. If you choose, you can cut out the card and carry it in your wallet. You may also save this PDF document to your computer for your records.

This card does not serve as primary source verification of your certification. Some employers and state boards of nursing will accept this card to document current certification status. Primary source verification of certification is ordered on our web page, [www.pncb.org](http://www.pncb.org). We have designed this online wallet card so that a copy of your current card is always available to you at no charge. To access this secure, watermarked document, log in at [www.pncb.org](http://www.pncb.org) and click on "My Profile" then select the Wallet Card option.

Please contact our office at [pncb@pncb.org](mailto:pncb@pncb.org) or call 1-888-641-2767 if you have any questions about your certification.
