Additional Insured

 By selecting this checkbox:

I understand the requirements for adding an additional insured and downloading the additional insured coverage verification: Your AMTA member insurance policy provides coverage to a landlord or employer as an additional insured when required by written agreement or contract. Please read your contract carefully to be certain that you're required to add additional insureds. Your employees may not be named as additional insureds, but they can obtain their own coverage by becoming AMTA members. Also, your massage therapy business name should not be listed on the Additional Insured form, but it can be listed on your Certificate of Insurance form below your name. Please call Healthcare Providers Service Organization (HPSO) toll-free at [1-888-253-1474](tel:1-888-253-1474) if you have any additional questions.

You do not have any additional insured records on your account.
