Just when we all thought winter was over BAM we were all suddenly hit with over a foot of snow! And according to the forecast it is not going anywhere anytime soon. In fact in the next two weeks only one day (last I checked) is not expected to bring more snow! I don't know about you, but I have very mixed feelings about this. Snow is cold, wet, and miserable to drive on and yet breathtakingly beautiful, peaceful, and fun to play in. Snow is an incredible curiosity of science and a truly amazing work of God as illustrated in this object lesson...

Have you ever made a paper snowflake before? They are a lot of fun to make, and they are a great way to decorate your house for winter. There is nothing so beautiful as freshly fallen snow. It is so white and pure. Whenever I see snow, or when I make a paper snowflake I think about Psalm 51:7 where it says "Wash me and I will be whiter than snow!"

Snow is very white isn't it? Can you image anything more whiter than snow? God says that when He forgives our sins we are even whiter than snow!

Snow may look very white, but did you know that each snowflake has a dirty secret? When a snowflake forms it actually forms around a very tiny piece of dust. The ice crystals grow on this piece of dust and it becomes a beautiful snowflake. But even though the snowflake is beautiful and white on the outside it is dirty inside. Many people are like that. They look nice and clean and happy on the outside, but inside they are sad and full of sin.

Jesus wants to clean us of that sin. He wants to save us and forgive us. He does not just want to clean us and make us look nice and white like a snowflake though. He wants to clean us on the inside. He wants to take that dirty heart and make it clean.

Jesus wants to make us not AS white as snow, but He wants to make us even WHITER than snow!
