

Checklist for AAPOR TI

Survey: New York Poll

TI Disclosure Elements	Answers
1. Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.	Emerson College Nexstar Media
2. The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.	See Below
3. A definition of the population under study and its geographic location.	Registered Voters in New York
4. Dates of data collection.	August 4-5, 2021
5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated.	Data was collected using a list of 15,000 mobile numbers and 20,000 cell numbers provided by Aristotle Inc. and with an online panel provided by Amazon MTurk.
6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.	Aristotle, LLC Amazon MTurk
7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.	Amazon MTurk uses opt in panels and not online ads to recruit participants
8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.	See #5
9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.	Online, IVR and SMS-to-web

<p>10. Sample sizes (by sampling frame if more than one was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non-probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To avoid confusion, it is best to avoid using the term “margin of error” or “margin of sampling error” in conjunction with non-probability samples.</p>	<p>The sample consisted of registered voters, n=1,183, with a Credibility Interval (CI) similar to a poll’s margin of error (MOE) of +/- 2.8% percentage points.</p> <p>A screening question was asked if the voter was registered. If the respondent said they were not registered, they were eliminated from the sample.</p>
<p>11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported.</p>	<p>The data was weighted by gender, age, education, race, party affiliation, and region</p>
<p>12. If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. Reviewer: Type NA if not applicable.</p>	<p>N/A</p>
<p>13. Contact for obtaining more information about the study.</p>	<p>emersonpolling@emerson.edu</p>

1. Do you approve or disapprove of the job Andrew Cuomo is doing as Governor?

Approve

Disapprove

Unsure or no opinion

Never heard of this person

2. The Attorney General's investigation found eleven women were sexually harassed by Governor Cuomo. Do you trust the findings of the Attorney General's investigation?

Yes

No

Unsure/no opinion

3. Do you think the investigation into Governor Cuomo's sexual harassment allegations are a serious attempt to find out what really happened or a politically motivated attempt to remove Governor Cuomo?

A serious attempt to find out what happened

A politically motivated attempt to remove Governor Cuomo

Unsure/no opinion

4. Should Governor Cuomo resign over claims of sexual harassment?

Yes

No

Unsure/no opinion

5. If Governor Cuomo does not resign as governor, should he be impeached?

Yes

No

Unsure/no opinion

6. Do you have confidence in the job Lt. Governor Kathy Hochul will do if she becomes Governor after either a resignation or impeachment?

Yes

No

Unsure or no opinion

Never heard of this person

7. If the election for Governor was held today, would you re-elect Governor Cuomo for a 4th term, or do you think it is time for someone new?

Re-elect Governor Cuomo

Time for someone new

8. What is the top issue facing New York State right now: (rotate)

Governor Cuomo's sexual harassment allegations

Nursing home deaths from COVID-19

Providing Covid-19 vaccines

Delta variant of Covid-19

Returning schools to in-person learning
Reopening businesses and the economy
Crime
Something else

9. What is your party affiliation?

Not registered to vote
Democrat
Republican
Independent or other

10. Who did you vote for in the 2020 election?

Joe Biden
Donald Trump
Someone else
Did not vote

11. What is your gender?

Male
Female

12. For statistical purposes only, can you please tell me your ethnicity?

Hispanic or Latino of any race
White or Caucasian
Black or African American
Asian American or Pacific Islander
Other or multiple races

13. What is your age range?

18-34 years
35-49 years
50-64 years
65 or more years

14. What is the highest level of education you have attained?

High school or less
Some college
College graduate
Postgrad or higher

15. What congressional district do you live in?

1st District: Rep. Lee Zeldin (R)
2nd District: Rep. Andrew Garbarino (R)
3rd District: Rep. Thomas Suozzi (D)

4th District: Rep. Kathleen Rice (D)
5th District: Rep. Gregory Meeks (D)
6th District: Rep. Grace Meng (D)
7th District: Rep. Nydia Velázquez (D)
8th District: Rep. Hakeem Jerries (D)
9th District: Rep. Yvette Clarke (D)
10th District: Rep. Jerry Nadler (D)
11th District: Rep. Nicole Malliotakis (R)
12th District: Rep. Carolyn Maloney (D)
13th District: Rep. Adriano Espaillat (D)
14th District: Rep. Alexandria Ocasio-Cortez (D)
15th District: Rep. Ritchie Torres (D)
16th District: Rep. Jamaal Bowman (D)
17th District: Rep. Mondaire Jones (D)
18th District: Rep. Sean Maloney (R)
19th District: Rep. Antonio Delgado (R)
20th District: Rep. Paul Tonko (D)
21st District: Rep. Elise Stefanik (R)
22nd District: Rep. Claudia Tenney (R)
23rd District: Rep. Tom Reed (R)
24th District: Rep. John Katko (D)
25th District: Rep. Joseph Morelle (D)
26th District: Rep. Brian Higgins (D)
27th District: Rep. Chris Jacobs (R)
