Our Week

INTERPERSONAL RELATIONSHIPS is the theme unit we started this week. This unit gives kids the chance to explore the concept of togetherness and learn how God created us to be social beings. We've enjoyed some great outdoor time this week as well as talking about the materials used for clothing around the world, observing and creating patterns and learning about outer space.

Letter of the Week

The letter of the week will be **Kk**.

Week of Prayer

This week we had a special opportunity to join the rest of the school for our spring week of prayer. We've appreciated Pastor Ben Orian sharing his stories and verses with us and reminding us how much Jesus loves us.

Theme

This week we will continue our book called *A Day on the Prairie*. This book highlights different animals and insects that can be found on the prairie, where many pioneers traveled in their covered wagons while moving

west. It's a unique book because it was written and illustrated by third-grade students in Illinois.

Bible

For Bible class this week the students will study how Abram led his family to worship and praise God and how God loves our worship as well. Our verse for the week is: "The Lord is our God and we will worship only Him." Joshua 24:24.

Reading Time!

So much reading progress is happening with these kiddos right now! Please listen to them read their little books EVERY DAY if at all possible. And don't forget to keep reading TO them as well. Include both kinds of reading on their weekly reading logs! This is how they become excellent readers!

Week of Prayer

We enjoyed our spring week of prayer this week with Pastor Ben Orian. It was special to join with the whole school to listen to the stories and lessons Pastor Ben shared with us.

Letter of the Week

Our letter of the week will be **Kk**.

is not always as you would expect but we have a God who makes all things good. We learned about the scrolls found recently that support the existence of the Bible. Thank you Pastor Ben for your words from God.

English this week focused on going deeper with Negatives, Adverbs, and Adjectives.

Math this week for 5th grade was dividing decimals and making a plan to solve word problems. 6th grade has been forming Algebraic equations from word phrases.

In Science this week we explored the heart, lungs, liver, and brain of a cow. It was interesting to see how excessive fat hardens around the heart! Thank you Mrs. Kay for sharing! We are also studying how thermal energy and matter interact. We saw a great example when we looked at what heat, cold and ice did to our sidewalk!

In Social Studies we are studying about the life of Confucius and his teachings. We learned about ancient China, its Dynasties, and accomplishments such as the building of the Great Wall of China.
