

MAPS Health Mitigation Plan 2020-2021

The background is a solid dark blue color. In the top right corner, there are several overlapping triangles in various shades of blue, including a dark blue triangle pointing down and to the left, a medium blue triangle pointing up and to the right, and a light blue triangle pointing down and to the right.

Steps being taken to
reduce the spread
of Covid 19 at MAPS

Step 1

A contract is to be signed by each parent promising to follow protocol when deciding whether or not a child is well enough to come to school.

- Fever free for 72 hours
- Screen their child daily for symptoms before sending them to school. More info on the next slide.
- Health clearance by a physician if a child exhibits Covid symptoms/negative covid test result
- Mandatory self quarantine for 14 days if any child travels by plane or to a Covid hotspot
- Mandatory self quarantine if any child is in the presence of a covid positive case.

Step 2

Increased safety measures prior to arrival parents review this info.

Symptoms of COVID-19

People with these symptoms or combinations of these symptoms may have COVID-19:

- Cough
- Shortness of breath or difficulty breathing
- Fever (CDC defines this as 100.4F or greater, or when one feels warm to the touch, or gives a history of feeling feverish)
- Chills
- Muscle pain
- Sore throat
- New loss of taste or smell

This list is not all possible symptoms. Other less common symptoms have been reported, including gastrointestinal symptoms like nausea, vomiting, or diarrhea.

COVID-19 Screening Questions

On next slide

Step 2

Increased safety measures prior to arrival- Every person arriving to campus before getting out of their car should ask themselves or their child these Questions

Students and staff should assess themselves for symptoms of COVID-19 before reporting to school; and/or may be asked the following by school personnel upon arrival:

“YES or NO since my last day in the building, have I had any of the following:”

- A new fever (100.4°F or higher) or a sense of having a fever?
- A new cough that cannot be attributed to another health condition?
- New shortness of breath that cannot be attributed to another health condition?
- New chills that cannot be attributed to another health condition?
- A new sore throat that cannot be attributed to another health condition.
- New muscle aches (myalgia) that cannot be attributed to another health condition or specific activity (such as physical exercise)?

If an individual answers YES to any of the screening questions before arriving, they should stay home and not enter the building. If an individual reports COVID-19 symptoms upon arrival, the school should activate the emergency protocol for COVID-19.

Step 2

Increased safety measures upon arrival

- Temperature checks at arrival
- Masks at arrival
- Social distancing of at least 6 feet with stickers for reminders
- There are to five different entry points depending on enrollment
- Parents will not be allowed in the building, but if they need to handle any school business they will have their temperature checked before meeting with Cheri on the school porch
- No child shall enter through the front door, students will enter at Ms. Bowers deck, the backdoor and the gym deck. Entry door will be determined by grade level.
- Increased safety reminder signage
- Our indoor campus is closed this semester.
No indoor visitors or volunteers.

Step 3

Safety precautions in the
classroom

- Social distancing
 - Mask requirement when moving about the room
 - Masks will hang from a lanyard on student's necks so they are always available
 - More hand sanitation stations
 - Barriers for group teaching or working
 - Increased classroom and bathroom sanitation
-

Step 4

Bringing fresh air into the classroom and bringing students out into the fresh air

- Windows and fans will be utilized to increase ventilation
- Shade will be provided to create outdoor teaching spaces
- An outside sink, as well as, sanitation stations will be provided to allow students to stay clean without going in the building
- White boards and charging stations for outdoor use will be provided to teachers
- The gym will be utilized as well, when other outdoor spaces are not useable (weather, etc.). The gym has exhaust fans and windows that can be opened. The air in the gym is not recycled.

Step 5

Bathrooms will be wiped down after each use.

- Students grade three and up will wipe all surfaces after they use them.
 - An adult will wipe down all surfaces after every student K through two.
 - Bathrooms will be cleaned again at the end of each school day.
-

Step 6

Precautionary measures to isolate and reduce the spread of Covid germs

- Students will be taught by one classroom teacher and one specialty teacher inside a day. Speciality teachers will not teach more than one classroom per day in an inside space.
-

Step 7

Procedure for exposure
The Virginia Department of Health
makes the following
recommendations

- If a family member of a child or staff member is exposed to Covid, they should self quarantine away from other family members for 14 days.
- If a child or staff member is exposed to an actual case of Covid, they should be quarantined at home on virtual Ed for 14 days and then receive a negative Covid test before returning to school.
- If a case of Covid is known in a classroom, all teachers and students that have been exposed to the student will be quarantined at home for 14 days and receive a negative covid test before returning to school.
- The local health department will be notified for further steps.

Step 8

School Departure

- Students will depart from school from the same doors that they arrived through. From the gym bridge to the playground on the school driveway each child will have an assigned place to stand 6 feet away from other children. Students will be picked up at the spot along the same route parents picked students up from last school year. Social distancing will be enforced during departure.
- If your child should need to leave school early, please contact the office do not enter an outside teaching space.

Blue marks are an example of where students will stand to wait for their ride. Yellow line shows the flow of traffic.

Step 9

Safety measures should be taken when you are not at school.

If families leave the carpool lane and go to the playground and students from different classrooms play and share germs, all of the efforts we are going through during the school day to operate the school as separated classroom families will be undone. Some germ sharing is unavoidable due to different children of the same family occupying different classrooms. But close contact with other families in other grades can be avoided. Do your part to slow the spread.

Step 9

Safety measures should be taken when you are not at school.

In order to avoid a school shut down, we must keep our school population healthy. Please follow CDC guidelines even when you and your family are not at school. This includes wearing a mask, social distancing and avoiding large crowds.

Before care and after care

Please only use this service
when needed.

This service of our school is crucial to family schedules and we do not want to discontinue it. It will be held in the gym until further notice. Do not offer it to your children as a time for increased socialization or a play date. This is a crucial daycare service we provide for families and will be the most likely place to cross contaminate classrooms. Children will be socially distanced in the gym, but it would be best to limit use of this service to times of actual need.

Learning options

- 💡 Option A-In person learning 4 days a week Monday -Thursday with daycare provide on Friday as needed. Viirtual art on Friday.
- 💡 Option B- Online learning 4 days a week with virtual art on Friday.
- 💡 Option C -Online learning with the opportunity to join outdoor activities when outside opportunities are scheduled.
- 💡 FYI-Teachers will take students out whenever possible, so there will be some outside _____ activities that are not prearranged or scheduled.

Decision Date

Wednesday, August 12, 2020

By Wednesday, August 12, 2020, please email the school with your in person or online learning choice for your family. Also, let us know if you plan to be involved in outdoor activities on our campus if you are choosing the online option.
info@mapschool.org

Other Dates to remember

August 17-Pick up supply date

August 19-7 pm Parent/ child back to school training

August 20-1st full day of school

August 21-No School-Virtual Art and Daycare if needed

August 24-Begin our first full week of school with no school on Fridays

Other Dates to remember

Students that need to be tested will set up an appointment to be tested on August 19. These will be students changing classrooms or new students.

Other Important Changes to Remember

1. Jeans, shorts and uniform pants allowed. No holes or rips in clothes.
 2. Polo uniform shirts still required.
 3. No lunch or other food will be sold at school.
 4. No field trips
 5. No School ENTRY for parents or other adults.
-

Pick up and
drop off day

Every Tuesday

Parents that
choose virtual learning
need to plan to come to
the school every
Tuesday and pick up and
drop off work and
supplies.

This is the PLAN...so far...

Information on this virus, laws, mandates and closures change daily.

All of this information is subject to change. That is why we are teaching all families how to interact with our digital teaching platforms. If the health department, the Potomac Conference of SDA or mandate from the state forces us to teach virtually that is what we will do.

Any change in plans will be communicated to you through our parent alert system.

Any covid positive information on our campus or necessary quarantine info will be communicated through our parent alert system.

Plan Creation

The plan was created by the principal, Kelly Wilkinson in conjunction with the MAPS School Board.

If you have any questions please contact:

-Mrs. Wilkinson 703-361-5593
principal@mapschool.org

The health department officials that oversee our area are:

Nurse of the Day 703-792-6301

The Health Director Alison Ansher
703-792-4710
Alison.Ansher@vdhvirginia.gov

The Nurse Manager Linda Woods
~~703~~-792-6320
linda.woods@vdh.virginia.gov

Staff Training

Our staff has been clearly advised through this document, staff meetings and a town hall meeting concerning our new protocols.

Signage is also available throughout the building explaining new rules and procedures.

Student Training

Thursday, August 20, 2020
8:30-12:30

Student training will occur all day on the first day of school. Please explain mask and social distancing rules to students before their arrival on campus.

Extra Cleaning and Quarantine

If a covid case is traced to our school, we will immediately notify any person that is was in contact with a positive case of

We will move forward only under the directions of the Prince William County Health Department.
