

Checklist for AAPOR TI

Survey: February 2022 National Poll

TI Disclosure Elements	Answers
1. Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.	Emerson College
2. The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.	See Below
3. A definition of the population under study and its geographic location.	Registered voters in the United States
4. Dates of data collection.	February 19-20, 2022
5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated.	Data was collected using a list of 15,000 mobile numbers and a multi-stage probability sample of 26,224 landlines provided by L2, with an online panel provided by Amazon Mturk.
6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.	Aristotle, LLC Amazon MTurk L2
7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.	Amazon MTurk uses opt in panels and not online ads to recruit participants
8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.	See #5
9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.	IVR and Online and SMS-to-web

<p>10. Sample sizes (by sampling frame if more than one was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non-probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To avoid confusion, it is best to avoid using the term “margin of error” or “margin of sampling error” in conjunction with non-probability samples.</p>	<p>The sample consisted of registered voters, n=1,138, with a Credibility Interval (CI) similar to a poll’s margin of error (MOE) of +/- 2.8% percentage points.</p> <p>A screening question was asked if the voter was a likely voter. If the respondent said they were not likely to vote, they were eliminated from the sample.</p>
<p>11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported.</p>	<p>The data was weighted by gender, age, education, race, and region based on 200 turnout modeling</p>
<p>12. If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. Reviewer: Type NA if not applicable.</p>	<p>N/A</p>
<p>13. Contact for obtaining more information about the study.</p>	<p>emersonpolling@emerson.edu</p>

1. What is your party affiliation?
Not registered to vote (end)
Democrat
Republican
Independent/other
2. How motivated are you to vote in the 2022 midterm elections?
Very motivated
Somewhat motivated
Not too motivated
Not motivated at all
Unsure
3. If the 2022 midterm election were held today, would you vote for the Democratic or Republican congressional candidate on the ballot?
Democratic candidate
Republican candidate
Undecided
4. Do you approve or disapprove of the job Joe Biden is doing as President?
Approve
Disapprove
Neutral or no opinion
5. In a hypothetical match-up, if the 2024 Presidential Election were held today, and the candidates were Donald Trump and Joe Biden, who would you vote for at this time?
Donald Trump
Joe Biden
Someone else
Undecided
6. Which of the following do you most rely on for political information?
Cable news channels (go to 7)
Facebook, Twitter or other social media (go to 8)
Local TV station news (go to 9)
Local newspapers (go to 9)
National newspapers (go to 9)
Information from friends or family (go to 9)
7. Which of the news channels do you rely on most?
Fox (go to 9)
CNN (go to 9)
MSNBC (go to 9)
CNBC (go to 9)
Newsmax (go to 9)

OAN (go to 9)

8. What source of social media posts do you find most credible?
 - Traditional print media such as the New York Times or Wall Street Journal
 - Cable news such as Fox, CNN, or MSNBC
 - Political organizations
 - Political pundits/columnists
 - Friends, family, individuals, or non-political influencers

9. How much of a threat to public health in the United States do you believe Coronavirus is?
 - Major threat
 - Moderate threat
 - Minor threat
 - Not a threat

10. Do you believe your state runs secure elections?
 - Yes
 - No
 - Unsure or no opinion

- 10b. Do you believe your state runs fair elections?
 - Yes
 - No
 - Unsure or no opinion

11. What do you think is the most important issue facing the country?
 - Healthcare
 - Covid-19
 - Education
 - Jobs
 - Taxes
 - Inflation
 - Foreign affairs
 - Immigration
 - Something else

12. Who did you vote for in the 2020 election?
 - Joe Biden
 - Donald Trump
 - Someone else
 - Did not vote

13. For statistical purposes only, can you please tell me your ethnicity?
 - Hispanic or Latino of any race
 - White or Caucasian

Black or African American
Asian
Other or multiple races

14. What is your age range?

18-29 years
30-49 years
50-64 years
65 or more years

15. What is the highest level of education you have attained?

High school or less
Some college
College graduate
Postgrad or higher

16. Please select the type of area where you live

Urban/city
Suburban
Rural

17. Can you please tell me your gender?

Male
Female
Nonbinary or other

18. What state do you live in?
