Celebrates the **500 year date** from when Martin Luther nailed his thesis to the door in Wittenberg, Germany. *"The Reformation did not, as many suppose, end with Luther. It is to be continued to the close of this world's history. Luther had a great work to do in reflecting to others the light which God had permitted to shine upon him; yet he did not receive all the light which was to be given to the world. From that time to this, new light has been continually shining upon the Scriptures, and new truths have been constantly unfolding."* **The Great Controversy p. 148**
