Joseph States 208-871-7376

Devotional: "I am the Lord, your God. I take hold of your right hand. I say to you do not be afraid. I will help you." Isaiah 41:13
Never be afraid, because God will always be with you. This week, we read about David and Goliath. Everyone was terrified to fight Goliath, but David wasn't because he knew that God was with him. If you are ever scared or stressed, just pray and God will help you because he loves us and cares for us. — Luke, 5th grade

Art by Hazel, 2nd Grade

Art by Ivan, 6th Grade

Poetry Corner:

Haiku by Makenzie, 4th grade
Math, art, reading, friends
The building blocks of our school
Recess, music, smart boards too.

Clouds by Addie, 7th grade
You find me way up high,
So bright, so white,
I'll catch your eye.
I could look like anything,
Maybe a butterfly.
I'm sometimes here,
And sometimes there.
I'm eventually everywhere,
Or I could also disappear.
What am I?

Playing by Jack, 1st grade
Play-dough
Legos
Astronaut
Yo-yo
I Spy
Nerf
Glow sticks

Classroom News:

Grades 3-7

This week, on Monday, we helped the Community Services at the church. They gave us each a personal bag of chips. Tuesday was teacher Heidi's birthday. We played dodgeball. On Wednesday Khyler did not come to school because his grandma passed away. We all felt bad for him. Thursday we finished our dinosaur book, Khyler came back to school, and in dodgeball I caught a ball between my knees. Friday was teacher Kelly's last day teaching. It was also Cadance's birthday. – Nolan, 4th grade

Grades 1-2

This week we started our new Bible unit on the Good Shepherd and learned a lot about sheep and shepherds. We even got to see a ram's horn! In Science we are studying space and we measured the relative distances between the planets using a yardstick. In P.E. we practiced our hockey skills. We started having morning meetings and setting goals for the day. I have been having a great time in class! – Hosanna, 2nd grade

Preschool/Kindergarten

This is Kindergarten news. This week they learned the letters B, W, J, and U. Also, Drew's birthday was on the 19th and Dominic's birthday was yesterday! They are reading a book about a raccoon. They really liked the obstacle course that Sophia's mom made. They learned 2 new songs called "The Penguin Dance" and "The Fruit of the Spirit", and they got to play with Fingerlings. – Mateo, 4th grade

Childcare/Preschool

The preschoolers are practicing patterns with beads. They are playing hide and go seek with shape tiles. They hide the tiles and find them, then match them. The Bible story that they are reading is Shadrach, Meshach, and Abednego. They are learning to tell stories with "who, what and where." On Wednesday they started gymnastics with Sofia's mom. – Havilah, 5th grade

Geography Spotlight: Svalbard

Svalbard is an archipelago north of Norway. It was the last place for humans to settle. It's a place safe from crime. There aren't any jails and people leave their houses and cars unlocked so people can use them to escape a polar bear. There are no stoplights or red names. It is the home of the walrus. In the summer, it's never dark and it's always light. There are more polar bears than people. The people live in cute colorful houses surrounded by beautiful mountains and snow. There are two main towns; Longyearbyen and Barentsburg. The people do lots of dog sledding with huskies. It's so cold that the most common injury there is frostbite. It is illegal to die there because they cannot bury a body because it won't decompose. It will just freeze! – Cadance, 5th grade

Student Spotlight:

This week I interviewed Nayton. He is in kindergarten. He is very likable! His favorite color is green, He likes nachos the best. He has 4 dogs and 1 cat. He likes convertibles. He has lots and lots of friends in school. You wouldn't believe it but he loves homework! That is why he is special. – Joshua, 6th grade
