

Submit your art / creative ideas for a mural at Miller! Due to your teacher by: May 15, 2023

Theme: **Kindness to Earth**

What are some ways we can be kind to our planet? Draw your ideas in the rectangle space above. You can use the back of the paper if you need more room. Think about ways you can **Refuse** (products you don't need), **Reduce** (trash for the landfill and pollution), **Reuse** (things you can use more than once), **Recycle** (glass, metal, paper, plastic), and **Rot** (composting food scraps for a garden). Some ideas: reuseable water bottles, riding bikes and walking, picking up litter, planting trees, making a bird feeder, eating more vegetables, separating recyclables, teaching others about Earth, refusing plastic forks and bringing your own...

What do you love about the Earth? Be sure to draw some of that, too!
