BURIAL
BLACK OAK CEMETERY
COMO, TEXAS

It was a misty day
when they took you away
It was like not even the sun could bring itself to smile
Or gaze upon a view it couldn't reconcile

It was a misty day
When they took you away
Like the clouds couldn't bring themselves to cry
By allowing tears to rain it would be like saying goodbye

It was a misty day
when they took you away
The trees were tall and the weather was chilled but not cold
And I thought to myself what a wonderful place to grow old

What a wonderful place to be
Even if it's the last time I see you and you see me
The trees are proud and green they sway but do not break
The beauty of the land and the thought of your memory will help mitigate the heartache

What a wonderful place to be
Even if it's the last time I see you and you see me
Sitting in a sterile hospital surrounded by the white lights doesn't drown the world's vivid hue
It doesn't drown out the feeling of family - the love we have for you

What a wonderful place to be
Even if it's the last time I see you and you see me
Here we are surrounded by loved ones crammed like sardines in a little hospital room
We know it's your last day but death is just part of a greater story and we will see you soon

It was a misty day
When they took you away
But I know a part of you will always stay
Living and breathing in the memory and mind of your family

And I think to myself what a wonderful way to die
For this is see you later not goodbye

-Kat Drennan, 12-26-2021

IN LOVING
memory of

JUAN D. NICHOLS
