Internet Safety

Individual Responsibility

Users/parents/ guardians are advised that the use of any network includes the potential for accessing web sites with inappropriate materials. It is the responsibility of all users to avoid these sites through prudent use of the internet. If a student accidentally accesses one of these sites, they should immediately exit from the site and notify a staff member. If the student finds that other students are visiting offensive or harmful sites, they should report such activity to the proper authorities.

Practice Personal Safety

Do not reveal personal information such as your full name, home address, phone or credit card numbers or other information which might allow a person to locate you. Never allow a face to face meeting with someone you have met on the internet without your parent's permission. Avoid web sites that allow you to share private information about you, your family, and/or friends.

Active Restriction Measures

The school will utilize filtering technologies to prevent students from accessing visual depictions that are obscene or otherwise harmful in any way. The school reserves the right to monitor student's computer/on line activities through direct observation and or technological means to ensure that students are not accessing such material or depictions. It is important to note that any filtering system is not 100 percent effective. Students should follow all school rules and avoid inappropriate web sites.
