DEAR VALUED CUSTOMER

We take this opportunity to thank our valued customers for their dedication and support to our mission. As we continue to build our capacity, we stay true to our commitments, by offering the highest quality products, leading innovations, improved logistics and training to ensure mission success and operational efficiency.

In the past year we have seen tremendous growth in our government business sector where we continue to provide critical support to various national security bodies. We are proud of the men and women of the various protective agencies serving our communities and respect their commitment, courage and professional standing while they execute those duties.

We have also been successful in growing our technologies division, firstly by developing our support team and then strengthening our partnerships with global technology suppliers. We are using our expertise and know-how to deliver Body Worn and Digital Evidence management solutions, as well as border security solutions and much more.

Our Indoor Range membership is growing and as this continues so are our training programs, in particular our Civilian Conceal Carry classes, where we have newly introduced a series of outdoor classes and programs. We continue to take pride in enhancing the safety, comfort and functionality of our students and ensure they feel the confidence that is deserved.

Once again , we look forward to seeing you soon!

FIREARMS DEALER

The Gun Shop, open to licensed users only, stocks a wide selection of Pistols, Shotguns and Rifles. Our armoury sales staff has over 25 years experience in the sale of firearms and ammunition, so it is no secret that we offer industry leading customer service. We are part of the dealer network for world renowned brands such as Sig Sauer, Glock, Smith & Wesson, Benelli, Remington, LMT, CZ, Sellier & Bellot.

SPECIALIST GOVERNMENT CONTRACTOR

Over the past 12 years we have been a dedicated Government Contractor, delivering our solutions to various government entities within the region and covering critical needs through our unmatched network of suppliers and specialised logistics support. Our knowledgeable team has grown and remains equipped to introduce your organisation to the latest Military & Law Enforcement equipment and trends. We supply only the best because our customers over the years have demanded the most reliable products that meet and exceed the rigour of the harshest environments.

- RIOT CONTROL & PUBLIC ORDER EQUIPMENT

- COMBAT & EMERGENCY MEDICAL SOLUTIONS
- FORENSIC & SCENES-OF-CRIME INVESTIGATION CONSUMABLES
- CEREMONIAL UNIFORMS, BADGES AND REGALIA
- FIRE AND E.M.S. SOLUTIONS & MINOR EQUIPMENT

A photograph of two men in tactical gear practicing with firearms in a training facility. The man on the left is wearing a green t-shirt, camouflage pants, and a camouflage cap, holding a handgun. The man on the right is wearing a grey t-shirt, black pants, and glasses, holding a blue rifle. They are standing in a room with concrete pillars and a chain-link fence in the background.

FIREARMS & SPECIALIST TRAINING

Through a number of purpose built Indoor/ Outdoor range facilities and international partnerships, we deliver a variety of developmental and specialist programs to both government and private clients. In addition, we serve the wider Law Enforcement and Military community by providing specialist overseas programs. Our logistics and coordination benefits our customers immensely, as we ensure complete efficiency and cost saving during the process.

INDOOR RANGE & MEMBERS FACILITY

We operate a world class indoor range facility and members club. Built to the highest standards, the facility offers our customers an accessible, safe and comfortable environment to train and improve confidence levels. The facility operates seven (7) days a week for use by our authorised members. Our facility also comprises Classrooms and Simulation Training Rooms for use by special organisations to deliver carefully prescribed training programs to their officers. Staffed by a full complement of Safety Officers and Firearms Instructors, you can always count on us.

RETAIL SHOPPING EXPERIENCE

We represent over 250+ Industry leading manufacturers, and as a result we continue to stock the most exciting and comprehensive lines of equipment through our expansive retail space. We offer thousands of products that serve our Law Enforcement, Military and Public safety professionals but also civilian, shooting and outdoor enthusiasts. Visit us today to see our extensive range of gear, all backed by industry leading warranties, customer service and complimented services.

ELECTRONIC SECURITY SOLUTIONS & SCREENING EQUIPMENT

The Electronic Security Division of AE Tactical possesses both the knowledge and experience to provide Integrated Security Solutions that are tailor-made to our customer's security requirements and their operational environments. We supply, install and service a broad spectrum of Electronic Security Solutions that include: Access Control, CCTV, Command Center Systems, Body-Worn Camera & Digital Evidence Management Systems, X-Ray Screening, Fleet Management and much more. We design and install specialised security infrastructure for high rise buildings, industrial facilities, residential, commercial and government properties along with special event applications.

FORENSICS

AE Tactical has evolved to offer a well-rounded and innovative collection of forensic solutions. Made up of a number of wider business functions, AE Tactical has identified a unique service to its customers bypassing the need for multiple service operators encompassing many areas of crime scene investigation from one key supplier.

As we continue to pioneer forensics and scenes-of-crime products distribution throughout the Caribbean, we know that time is of the essence, so when you call upon us we have a series of enhanced logistics solutions that allows us to seamlessly pick your orders and dispatch on demand, deploying supplies from various storage facilities.

RUVIS SYSTEMS

The KRIMESITE™ Imager is a no-touch technology utilizing Reflected Ultraviolet Imaging (RUVIS) to detect latent fingerprints without the use of powders or chemicals. SIRCHIE® provides various options to allow the user to search, view, and capture latent prints and other evidence not visible to the unaided eye. With the use of shortwave UV (254nm UVC), the KRIMESITE™ is extremely versatile, allowing usage in various lighting conditions, and is ideal when trying to identify the most evidence with the best available technology.

LATENT PRINT KIT FINGERPRINT

This kit offers the crime scene investigator all methods of developing fingerprints available. All of the necessary support equipment is included. The components of this kit should enable the user to accomplish successful latent fingerprint development in the field. Contains: Powders, Brushes, Chemicals, Magnifiers, Packaging and much more.

PRESUMPTIVE DRUG TESTS

The NARK® II Progressive System for Drug Identification is one of the leading presumptive tests in production today. NARK® II has the capability of presumptively identifying several families of substances suspected of being abused drugs. The system is designed to function as a transportable narcotics laboratory; it is available for use wherever the need for its capability might arise.

IMPRESSION EVIDENCE COLLECTION KIT

This kit features a self-contained, pre-measured water capsule and dental stone casting material packaged in a single, heavy-duty plastic pouch. This incredibly simple-to-use kit eliminates all the mess and guess-work inherent with many other casting mediums. With Shake-N-Cast™, the mixture is always the right consistency.

FORENSIC PAL KIT

The Forensic PAL (Personal Alternate Light) is a state-of-the-art portable light. Four super-bright, blue light-emitting diodes (LEDs) create a bright light suitable for a general crime scene search for bodily fluids, fibers and other evidence which will fluoresce in the 450-470nm range. Small enough to fit in a shirt pocket, the rugged flashlight-style housing is shock-proof, waterproof to two feet and has been drop tested at up to 10 feet.

EVIDENCE DRYING CABINET

The Mini-DrySafe Evidence Drying Cabinet works on the same principles as the standard DrySafe, but fits on a bench top and only takes up 24" of space. Perfect for mobile crime labs or any area short on space. This cabinet allows safe drying of evidence and avoids and eliminates any contamination of evidence.

NARCOPOUCH TEST 908 DUQUENOIS-LEVINE

Duquenois-Levine tests for Marijuana, Hashish and Hash Oil. Each pouch contains up to three chemical ampoules to provide greater substance discrimination. The white background makes identifying color changes easier and more accurate. The safety holder helps to prevent broken glass from puncturing the pouch during normal use.

GUN SHOT RESIDUE, SERIAL NUMBER RESTORATION, TRACE METALS

Sirchie provides reliable tests for gun shot and explosives residue, serial number restoration, and trace metal detection to aid the investigator in the pursuit of justice.

CRIME SCENE VEHICLE STORAGE

Evidence collection Modules are easily changed from one vehicle to another. Forensic kits and shelves are labeled to ensure organized storage of equipment. The Aluminum Cabinets with industrial, baked on paint finish do not absorb moisture or rot due to exposure to rain or the elements.

WHOLE BLOOD COLLECTION KIT

Everything necessary for drawing a small blood sample from an individual. Includes a vacuum syringe and tube, sterile gauze pad, security and biohazard labels and a padded envelope to protect the blood sample while in transit.

X-LOUPE® AGILELITE LIGHTING SYSTEM - COMPLETE KIT

The X-Loupe® AgileLite System is a powerful DSLR illumination platform for macro and micro photography (white light or fluorescence) at forensic crime scenes. It can transform its lighting features by changing proper modules, and each module is specially designed for different photography missions at crime scenes.

THE BREEZE SINGLE-USE DISPOSABLE FIBERGLASS BRUSH

Latent print brush designed for use at crime scenes when cross-contamination is top concern. The Breeze™ uses the same ultra-soft fibers that have been used for decades in the Zephyr® fingerprint brush; only less of them ;making the Breeze™ slightly less full and therefore a more economical option as a disposable brush.

PELICAN® 1650 CASE W/ PICK-N-PLUCK™ FOAM

Create your own kit with these rugged, watertight cases. Available either empty, with Pick-N-Pluck™ foam and convoluted lid foam, or an adjustable compartmentalized dividers, Pelican cases can be used to store almost any type of supplies or equipment.

ALTERNATE LIGHT FORENSIC LIGHTING

The megaMAXX™ ALS System was developed to assist the investigator at the crime scene or in the lab. It consists of handheld, machined-aluminum, and self-contained light sources—each operating at or very near the light frequency marked on individual lights.

LABORATORY EQUIPMENT & SUPPLIES

Sirchie now offers laboratory equipment and supplies to assist laboratory personnel in examining, processing, and measuring evidence.

DNA EVIDENCE COLLECTION KIT

The analysis of DNA is similar to fingerprints in trying to determine a match. With enough identifying features, DNA can either link or eliminate a suspect from a crime as well as link crime scenes together. Get all the essential components that you need to recover DNA evidence, all in one kit.

ROUND GLASS MAGNIFIER, 5"

These superior hand-held magnifiers feature high-quality glass lenses, walnut handles and solid brass rims. They are heavier and sturdier than most magnifiers because of top-quality materials and construction. The magnifiers feature 2x magnification, for comfortable viewing

EVIDENCE COLLECTION

Sirchie offers a broad range of tools for use in the identification and retrieval of physical and trace evidence including precision tools, marking devices, vacuum kits, metal detectors, and a diverse range of evidence collection kits for everything from DNA/physiological and trace physical evidence to entomology and arson evidence and investigation kits.

POLICE BARRIER TAPE - 3IN X 1000FT

Our barrier tape is 7.62cm (3") wide and 304.8m (1000') long with black letters printed on 3 mil. polyethylene. Each roll comes in a heavy-duty cardboard dispenser box for storage and ease in handling.

NIK® TEST E - MARIJUANA, HASHISH AND HASH OIL

Duquenois-Levine Reagent - Standalone test for the presumptive identification of Marijuana, Hashish and "Hash Oil".

Positive Result: No color change after breaking the first ampoule, a dark blue or violet after breaking the second ampoule and a grey upper layer over a violet layer upon breaking the third ampoule.

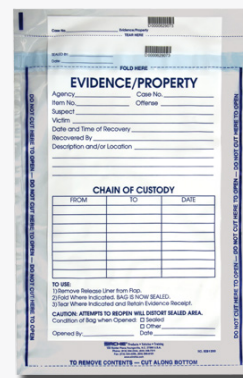

NIK® MASTER-PAC™ (130 TESTS)

The NIK® Master-Pac is recommended for military, law enforcement, intelligence, customs, postal service, correctional facilities and safety/security investigations where the need for complete polytesting is anticipated. Kit includes two boxes each of Tests A and E; one box each of Tests B, C, D, G, H, J, K, L and U; one box of Acid Neutralizer (Test F); Polytesting Report Pad; Identidrug™ Desk Chart; Narcotic Field Test Training CD

EVIDENCE PACKAGING, LABELING & SEALING

Proper collection, handling, labeling, transportation, and storage of evidence are critical elements to maintaining the integrity of crime scene investigations. Sirchie provides a broad offering of bags, boxes, containers, envelopes, and labels that are designed specifically for forensic applications that allow the investigator to collect, label, and maintain evidence according to their relevant standard operating procedures.

MYSTAIRE EVIDENCE DRYING CABINET 64"

Maintain the Chain of Custody, prevent decomposition of evidence and protect yourself from exposure to unknown substances. Misonix cabinets are made from the highest quality construction materials to ensure many years of safe usage. Filtered air passes through the cabinet drying the wet evidence. Potential bacteria, viruses and odors are removed by HEPA and Carbon filtration before clean air is returned to the room.

CARON DFO/NINHYDRIN DEVELOPMENT CHAMBER

Caron's Fingerprint Development Chambers have been designed to accelerate the DFO, Ninhydrin and other fingerprint development processes. Fingerprints are detected at a faster rate, and with better clarity, by precisely controlling conditions of high temperature and high relative humidity. Typical operating conditions are 100°C for DFO and 80°C/65% RH for Ninhydrin.

MYSTAIRE™ FUMING CHAMBER 30", CA-6000

This ductless cyanoacrylate fuming chamber is a fully automatic system that develops latent fingerprints without exposing the user to any harmful fumes. The control panel gives the user complete control over humidity, timing and air circulation, allowing you to create the perfect conditions for fuming in your region.

BUCCAL SWAB DNA COLLECTION KIT

Used to collect Buccal cells for DNA processing. Simply follow the included directions to collect a sample by rubbing the included swabs inside the subject's mouth. Each kit includes gloves, documentation forms and security labels. Place the swab in the inner envelope, seal it and send to your lab.

GUNSHOT RESIDUE KIT (GSR), AA

For Atomic Absorption Analysis. Atomic Absorption test supplies consist of cotton swabs in tubes and a liquid chemical. The liquid is put on the cotton swabs and rubbed on the suspected shooter's hands. The cotton swabs are then placed back into the tubes and sent to the lab for analysis. Each kit is individually sealed and contains instructions, plastic gloves and an envelope and evidence label for resealing.

CLEANSEARCH® DISPOSABLE LATENT PRINT POWDER PACKS

Featuring Lightning® fingerprint powder, these one-time-use, disposable jars of fingerprint powder will eliminate the possibility of cross-contaminating your current crime scene. Each jar of clean, fresh powder is hermetically sealed with a foil lid.

CRIME SCENE DOCUMENTATION & PHOTOGRAPHY

We stock a broad and reliable range of scales, rulers, sketching templates, camera kits, and photography supplies to aid the investigator in crime scene documentation.

MAGNETIC RED BI-CHROMATIC™ FINGERPRINT POWDER, 10Z.

This magnetic variant of our Red Bi-Chromatic™ Powder is ideal for dusting on multi-colored surfaces

LEICA DISTO™ E7500I

The Leica E7500i features a digital Pointfinder and 360 degree tilt sensor that allows for measurements that are not possible with conventional measuring meters. The unit features an LCD screen display to allow the user to see what the laser pointer is aimed at in all light conditions and weather conditions.

TYVEK-COVERALLS

Tyvek Coveralls are designed to protect individuals and clothing from dry particulates, aerosols and light non-hazardous liquid splash. OSHA regulations require employers to provide appropriate protective apparel, which does not permit blood or other potentially infectious materials to pass through under normal conditions of use. Our suits are available in two fabrics, Tyvek and Tychem QC. Tyvek is ideal for powdering applications and limited exposure to non-hazardous liquids.

PELICAN™ 9430B REMOTE AREA LIGHTING SYSTEM

The 9430B Remote Area Lighting System is the perfect unit for hard to reach places. At just 22 lbs., the 9430B is easily transported up stairs or ladders. Its compact size and fully extendable mast with 360° rotating light head make tight spaces easily accessible. Dual power outputs illuminate a second optional head making the 9430B an adaptable and expandable illumination solution. Solid state high efficiency circuitry withstands rigorous use day in and day out.

PORTABLE SLAB AND ROLLER KIT

This complete kit contains everything needed for taking fingerprints using a slab and roller. Each kit includes a 120ml (4oz.) tube of our Perfect Print® ink, our standard fingerprint cardholder, a roller and steel slab, a box of 500 ReTABS, 12 ID-Kleen™ towelettes and a 473.2ml (16oz.) bottle of Gritz™ Hand Cleaner for easy clean-up

B.DRY® REVERSIBLE RAIN GEAR WITH WATERBLOCK™

Blauer was the first company to offer reversible rainwear for public safety and our B.DRY® line is still an industry classic. Now with Blauer's WaterBlock technology, which seals comfortably to your body at the collar and cuffs. Durable enough to stand up to your demanding job (we still see originals in service!), our heavy duty waterproof, breathable fabric technology will keep you safe for years with its ANSI 107-2015 Type P Class 3 certification. Quick drying nylon taffeta pockets and side pass-throughs for weapons access make our B.DRY® rainwear line uniquely practical. Pair with our 134 or 134-1 B.DRY® rainpants.

CRUSH™ SHOE AND BOOT

Crush is a hybrid fusion of the best of tactical boot, cross-trainer, and athletic shoe functionality, purpose-built to serve public safety pros just like you. TPU side mudguards add abrasion resistance to the low-profile Soles by MICHELIN®, which allow you to connect to the ground solidly, just like the tires in your car. The contour of the outsole is pre-cambered to help guide your foot through its natural range of motion, offering you sure footing in nearly any condition.

CONTOURA™ Insoles are certified to elevate comfort and performance, using a patent-pending anatomically-shaped design, innovative material compound, and a lightweight impact protection and energy-return system that keeps the spring in your step. Our locking speed lace system gives you just-right tightness and support that stays in place all day long, with tough laces to stand up to the demands of public safety work. Breathable upper fabric helps prevent moisture build-up and odor, and lightweight construction won't weigh you down when speed is at a premium.

A padded heel counter, collar, and tongue help reduce pressure points on your ankles and forefoot, helping these to be some of the most comfortable tactical shoes and boots you'll ever wear.

STYLES | FW056 (Boot) and FW053 (Shoe)
 Men's Sizes | 7-12, 13, 14, 15; Reg + Wide

CLASH® LT BOOT

Clash® LT, is our lightest weight and most breathable boot, built for warm weather and tactical applications. Weighing in at just 18 oz., Clash LT was built for speed and mobility, while still providing superior support and durability for the most rugged terrain. Mixed suede and mesh backed by a premium perforated foam construction provide toughness with extreme breathability. Integrated BOA® lacing system allows for donning and doffing in seconds while maintaining an even laced fit for added support and comfort. Integrated ESS shank gives you stabilization, while our compression molded EVA midsole provides long lasting shock absorption and rebound. Hybrid traction outsole is designed for grip on and off the road.

STYLES | FW016LT (6"), FW018LT (8")
 Men's Sizes | 7-12, 13, 14, 15; Reg + Wide
 Women's Sizes | 5, 6-10 (6", Black Only)

SOFTSHELL FLEECE JACKET

Our stretch nylon faced softshell won't pick, pill or fade like ordinary fleece. Use as a warm winter liner for System Outerwear styles or customize and wear alone during moderate cold weather. Water and wind resistant, and highly breathable indoors or out. Zippered napoleon pocket on left breast. Easy care.

MEN'S RESPONDER SHIRT

Combines the durability and protection of a tactical jacket with the comfort of a t-shirt giving first responders a more comfortable top to wear under their body armor and vests. The 24-7 Series® Responder Shirt's body is constructed from state of the art drirelease® fabric that regulates skin temperature, providing a 7° cooler body than other fibers or treatments of the same weight and treated with environmentally friendly FreshGuard® treatment for a built-in natural odor neutralizer system to prevent bacteria growth. The sleeves and yoke are constructed from durable polyester-cotton rip-stop for abrasion resistance and professional appearance.

T.R.U.® SHORT SLEEVE 1/4 ZIP COMBAT SHIRT

Designed for operators in warm climates to keep them cool while getting the job done. The same durability and protection of our regular Tactical Response Uniform® Combat Shirt but with short sleeves to keep you cool when worn under body armor and vests. The body of the shirt is made from 60% cotton/40% CORDURA® Baselayer fabric that meets the No Melt, No Drip thermal requirements officers demand while keeping them cool and dry by wicking away moisture from the body.

TRU XTREME® SHIRT

The elite warriors who protect us know firsthand that dressing to fit the job is the first step towards getting a tough job done. The most dedicated officers need the most technologically advanced uniform they can find. With dozens of advanced features, the TRU Xtreme® Tactical Response Uniform® is the latest and greatest in comfortable and functional tactical uniform design.

WOMEN'S LONG SLEEVE DRESS SHIRT

The 24-7 Series® Women's Long Sleeve Dress Shirt has a DWR water repellent coating and is designed with hidden pockets and loops to keep the professional look, but is ready for work when the job gets tough. The tapered body with fitted waist design gives you the tailored look right off the shelf.

H2O PROOF ECWCS PANTS

When it's wet and miserable outdoors and you're trying to stay comfortable, keeping your upper half dry is only half the battle. Designed to fit over your standard pants these three layer waterproof, windproof, breathable pants are better than ever. The secret is the high quality, environmentally safe Bemis seam tapes. Seam tape is the critical link in the chain of waterproof protection and Bemis is the recognized worldwide technology leader in providing thermoplastic films for a myriad of industrial applications.

MEN'S 24-7 XPEDITION® EMS PANTS

Based on our 24-7 Xpedition® pant with key additions specific to emergency medical services. Features such as EMS specific cargo packets, articulated knees with knee pad openings, integrated soft flex panels and dual side vents meet the demands of these fast paced professionals.

MEN'S ASCENT PANTS

These pants are designed to be the next step in the evolution of the tactical pant from the fabric to the design. Cutting edge mechanical stretch 6.5oz. polyester cotton micro rip-stop fabric with a mechanical stretch that creates superior comfort and amazing ease of movement. Treated with a durable water resistant coating this fabric is stain and fade resistant creating superior soil and moisture protection.

27-P BASIC FLIGHT SUIT

Coveralls for those who fly service aircraft, bust ghosts, perform ground maintenance, or for carrying out search and rescue missions. Sewn to military specification FNS/PD 96-17 (MIL-C-23141A). Whether on the ground or in the air, no work suit is more versatile.

JUNGLE PX 10.5"

THE BENCHMARK for tropical climates, the Jungle PX 10.5" features breathable Cordura® and in-step drainage vents help the foot stay dry. The black model features a steel plate that protects the foot from hazards, while the tan and coyote models provide a thermal barrier for added comfort on hot surfaces.

ABOOTTABAD TRAIL - MID WP

Rugged Trail Runners having tactical features starting with Altama's legendary Panama Sole technology. Using sticky SOFROC™ rubber that wraps up in the arch to aid in fast roping, we've turned a typical trail runner into a tactical machine!

VENGEANCE SR 8" SIDE-ZIP

FIT FOR lightweight duty where speed and readiness are the highest priority, the Vengeance SR Side-Zip utilizes YKK's extremely durable Vislon® zipper, allowing the wearer to get into action ASAP.

CLASSIC 6" WP SZ SAFETY

Constructed to perform under any condition, this lightweight duty boot workhorse delivers the requirements and execution standards for those who prefer a 6" option. Stay dry, safe, and comfortable throughout your shift while wearing this boot that is engineered to take on any call.

FORCE 8" WATERPROOF

At the top of the Force collection is the Force Waterproof. This boot features our latest slip-resistant outsole platform and is equipped with waterproof bootie construction to keep you dry and comfortable at all times making it the ultimate value for those uniformed professionals working in harsh conditions.

CHASE 9" WATERPROOF

At the top of the line, you'll find the Chase 9" Waterproof. This all leather boot is comfort crafted to operate and perform under the toughest conditions. With its proven non-slip Chase outsole and its waterproof bootie construction, you can emerge this tactical boot into any situation and confidently focus on the details of the task at hand.

SHADOW AMPHIBIAN

The Ultimate Special Forces Tactical Boot. The Shadow Amphibian is made for and in conjunction with the Navy SEALs to use while in the air, on land and while swimming. It is not designed to keep the water out, but to let it flow in and out of the boot as needed. Features a two-way passive drainage system, patented composite plate and TPU outsole for an efficient "stealth approach" when transferring energy from foot strike to toe-off, contoured climbing arch, compression molded EVA midsole, compression molded EVA insole, fin-lock, slip resistant, light-weight injected blown TPU outsole, articulating heel and outsole shape for assisting in noise reduction, blade resistant "SuperFabric®" toe cap, 5" Microfiber H2O shedding synthetic leather upper with breathable membrane, moisture-wicking, H2O shedding antimicrobial upper lining, Rip-stop nylon accents, engineered Achilles flex notch, sleek vamp profile for secure fin fit and climbing, gusseted tongue construction with invisible lace pocket, seamless, lightweight quarter protection construction.

HYDRO RECON

Dynamic, quick-response shoe with minimalist feel for all surfaces. Features full drainage, Anti-Inversion mid foot support and fit strap, neoprene surf bootie construction with medial zipper and anti-debris gusset, OCF Fit System, and ceramic-coated SUPER FABRIC toe cap.

MEN'S URBAN OPERATOR WATERPROOF SIDE-ZIP BOOT

The NEW 7" Urban Operator H2O Side-Zip boots are perfect for duty with a full grain polishable leather toe for a professional look. The 100% waterproof and breathable membrane will keep your feet dry in wet conditions. A new side-zip with YKK® VISLON® zippers help you get your boots on and off quickly while the molded zipper cover will keep the zipper pull firmly in place. Boasting a Torsion Flex™ fiberglass reinforced composite shank that is 75% lighter than steel, the Operator boot has athletic shoe performance with tactical boot durability.

PANAMA SOLE JUNGLE BOOT

Complete with Panama Sole, Black Cordura® upper and Leather Padded Collar Outsole makes this Mil Spec boot perfect for the Jungle. A Vulcanized Rubber Removable Innersole provides support and cushioning, the in-Step Drainage Vents allow water to run outside and the Steel Shim Spike Protection offers the highest level of safety.

JUNGLE II

Since 1969, the original Altama Jungle boot has been proven in combat theatres across the world. Now with the cutting edge Dual Density Rubber (DDR) process, the world's most trusted combat boot is enhanced with astonishing comfort and unbeatable durability. The proven has improved.

BLACK OPS COMBAT BOOT

This Lightweight, breathable and water-resistant boot features a CORDURA® and abrasion-resistant suede upper for durability. The Vibram® "Multisport" oil-resistant TC4+ compound outsole has large, open lugs for traversing debris and provides excellent traction on irregular surfaces. A great tactical boot for SWAT teams.

ASSAIL™ BOOT

Our proprietary new all-terrain lugged outsole provides a sure grip on all types of surfaces, in all conditions, with durable TPU mudguards on the sides for increased protection. Padded and ribbed heel offers cushioning to help shield your Achilles tendon, while similar padding also protects your lower shin - both also provide added support to maintain stability as you move. Finally, the new mid-power Boa® Fit System improves fit and comfort, while also adding protective guards above and below the dial to prevent accidental release of system tension. The perfect tactical boots have finally arrived - get yours now.

WOMEN 6" PATROL BOOT

This Women's 6" Boot is perfect for the officer who prefers an ankle-height boot. The polished leather toe maintains a neat, clean and professional look and meets most organizational requirements for black leather boots. This boot features a Shock Mitigation System™ which combines construction components to offer you the ultimate in support for high impact activity. Available to meet ASTM standards and also manufactured in a male version.

CLASH 8" BOOT

Blauer's lightweight and durable Clash™ Boot defines action ready footwear. Integrated BOA® lacing system allows for donning and doffing in seconds while maintaining an even laced fit for support and comfort. Braided stainless steel cables give you long-lasting durability - never deal with another broken side zip. Full grain leather polishable toe keeps you looking sharp. Hybrid outsole is the ultimate combination of stability, traction and comfort for any situation.

DUTY GEAR

We offer an extreme line of gear to help officers protect and serve. Our professional line of duty gear including gun holsters, belts, pouches and accessories enhance the safety, comfort and functionality of any officer. We are an established distributor on record for the most renowned brands in the industry, whether duty or tactical we have what you need. Backed by unmatched product knowledge we will ensure you get the right gear for your mission.

We are innovators and leaders in the duty gear market, bringing the most rugged and purpose built equipment to you and your agency. Most notably The Safariland Group, the most comprehensive manufacturer of police duty gear and tactical equipment.

NIGHT VISION DEVICE NVS 7-3XT

The NVS 7-3XT night vision goggle has been proven in deployments in conflict zones and by peacekeepers around the world. It utilizes an advanced Gen 3 image intensifier tube, has a built-in IR illuminator, auto shutoff mechanism and is fully MIL-SPEC. Fitted with an optional 3x, 4x, 5x or 8x lens, this advanced goggle can be easily converted to a long range night vision binocular, and a with full range of additional accessories, the NVS 7 series is the among the world's most versatile night vision devices.

F.U.R.Y. UTILITARIAN GLOVES

The Blackhawk F.U.R.Y. Utilitarian glove is built for professionals and enthusiasts alike, is designed to handle an array of activities, and is constructed of lightweight, durable synthetic materials. A silicone palm print optimizes grip in any scenario.

3-DAY ASSAULT BACKPACK

Lightweight and versatile, the Blackhawk 3-Day Assault Pack is built to withstand the rigors of constant use. The body is comprised of lightweight, high-tenacity 210/330 denier nylon and 210 denier ripstop nylon that resists cuts, tears and abrasions. The exterior of the entire pack is covered with S.T.R.I.K.E.® webbing to attach any number of pouches or accessories. Padded shoulder straps and a removable heavy-duty waist belt add comfort while evenly spreading out the load.

GUARD ADVANCED 3 LENS KIT

The Wiley X Guard is ready for virtually any task. The interchangeable lenses, available in a 2 or 3 lens kit, can handle a variety of lighting conditions. A Military Ballistic Rating ensures your eyes are protected on and off the fire line.

The low profile frame and pliable bayonet temples are comfortable for all day wear. The curve of the Selenite polycarbonate lens provides ultimate peripheral protection, and hugs the cheeks in a manner that ward away dangerous particles. The Wiley X Guard is equipped with an air permeable Brow Bar to avoid dust and debris from above, while doing double duty as a built-in sweat band.

10 X 42 TACTICAL BINOCULARS

Using entirely new optical system formulations, fully multi-coated optics and a completely new shock and waterproof housing, the 10x42 binocular delivers a new standard of performance that includes a new Mil Reticle Targeting System allowing faster and more accurate communications between the spotter/observer and shooter or weapons delivery personnel.

MODEL 7305 7TS™ ALS® / SLS TACTICAL HOLSTER WITH QUICK RELEASE

This 7305 holster features the Automatic Locking System (ALS®). It locks the weapon in all directions upon holstering, its operable with the thumb, and the weapon can be drawn straight out of the holster with no twisting required. Additional retention is achieved when used with the SLS rotating hood. Hood Guard is included. This model features the quick-release double leg strap and leg shroud with detachable buckle for low profile carry.

MULTI-AIMING LASER LAM 3G

The LAM 3G is a multi-laser aiming system equipped with collimated visible and IR lasers designed to reach out to 2,000m. Built-in IR illuminator and IR aiming laser provide covert tactical precision when paired with night vision devices. Features an adjustable IR illuminator for better illumination at longer ranges, dual activation switches and high/low power modes ensures appropriate laser intensity during training exercises. With a quick-release M1913 mount, the LAM 3G is among the lightest aimers in its class and is the right choice for professional operators demanding unrivaled performance and reliability. The unit is constructed of high-strength aluminum and can withstand rigors of tactical life on virtually any weapon platform.

MULTI-POINT TACTICAL SLING QUICK DISCONNECT STRETCH-BLACK

The Blackhawk MultiPoint Tactical Sling solves two key problems for shooters. Make a multipoint sling easy to use and keep the sling from rubbing your neck raw. Slick-edged, wide webbing disperses load, and the patented, rapid adjust slider instantly adjust sling length on the move. Instant conversion from a single-point to a two-point sling is standard issue, providing excellent support and versatility. Designed to operate in the most demanding environments, the rugged but lightweight design is the perfect mix of comfort, adaptability, and speed.

FAIL SAFE URBAN PACK GEN II

The Fail Safe Urban Pack blends function and style. The streamlined design allows users to blend into urban surroundings. With strategically placed hidden pockets to keep all your gear organized, this double duty assault pack will keep you mobile, comfortable, and efficient on the most rigorous missions, or on your weekend adventures.

SEAL PUP ELITE CLIP POINT, BLACK, SERRATED

The SEAL Pup Elite is our high performance edition to the SEAL family of products. This knife is serious business and carries on the tradition of supplying the world's elite military forces. Features include: thicker steel stock (.185), hardcase Black TiNi coating, newly designed longer ergonomic handle with deeper finger grooves, racy new blade shape with longer cutting edge, added blade spine rasp for notching, filing, and thumb placement and an injection molded glass reinforced handle scored with grip lines.

DOUBLE BELT RIG

The Blue Alpha Gear 1.75" Double Belt Rig is designed to be highly functional load bearing utility belt that can handle all your gear. Load it up with a OWB holster, mag carriers, pouches, and whatever else you need. The 1.75" outer belt securely attaches to the 1.5" inner belt using high quality Velcro. The inner belt is threaded through your belt loops and the outer belt attaches to the inner belt over top of your belt loops. This allows you to quickly and easily take your outer belt on and off while the inner belt will still hold your pants in position.

FINGERLESS TACTICAL GLOVE

This Special Operations Light Assault Glove is an excellent all-purpose tactical glove, built from synthetic-materials that dries quickly and provides a secure grip on wet surfaces. Dual back-of-hand and wrist adjustments for perfect, secure fit and nylon loops on the wrist allows easy donning and attachment to carabineers.

NIGHT VISION DEVICES

The Multi-use Mini-Monocular is a high performance modular, hand-held passive night vision monocular device that utilizes a single Generation II/III intensifier tube to provide crisp, clear images under the darkest conditions.

XVL2 IRC WEAPONLIGHT

The XVL2-IRC Pistol & Carbine Light/Laser Module system is a paradigm shift in light and aiming laser systems. Proven technological advancements in tactical illumination are key design elements in the XVL2-IRC. Custom MaxVision Beam™ technology shapes the illumination beam into one that provides the optimum mix of projected illumination plus wide-angle illumination for target acquisition and situational awareness.

TACTICAL COMMUNICATIONS

This tactical communication headset has a slim cup design, fully independent dual earphone system for active volume and external radio signal for maximum security. The headset automatically switches off after two hours if no function is used. Two signals are emitted as a warning that the ComTac will switch off in one minute. If no function is activated battery life is about 250 hours.

EAR DEFENDERS HEARING PROTECTION

Sonic Defenders protect your hearing without interfering with your ability to hear routine sounds or conversations. Their double-flange stem design fits most people and provides a Noise Reduction Rating (NRR) of 24dB.

RIGGERS CQB DUTY BELT

Fully equipped with parachute-grade buckles and adapters meets PIA-H-7195 standards, a 1.75" webbing (7000-lb. tensile strength) and hook & loop feature secures the running end.

Available in: Black, Olive Drab, Coyote

PHALANX PLATE CARRIER

The modernized Condor Phalanx Plate Carrier was designed with the interests of the operator in mind. Grid-styled cummerbund system runs around the carrier for adjust-ability and attachments, that can also be used with most Vanquish Armor Systems (VAS) accessory upgrades. This completely adjustable carrier does not include any hardware that may become a liability during operation. Eliminating the factor of hardware allows for complete reliability and durability, to better your chances of success in any given environment.

SPECIALIST® GLOVES

Low-profile gloves for maximum dexterity

Built for maximum dexterity and grip in a wide range of conditions, the Hatch® Model NS430 Specialist® Gloves offer accurate feel and secure weapons manipulation while on duty or at the range. Synsi-feel™ synthetic leather palms feature Extreme-Grip™ reinforcements on the palms and fingertips for added traction in key areas. Neoprene construction provides a snug fit with weather-resistance for colder temperatures and breathability to keep your hands from overheating in milder weather.

MODEL 4331 MOLLE BATTLE BELT

For ultimate comfort; distributing the carried weight evenly on the hip, while the padded mesh lining and contoured shape provide all-day comfort. The two rows of MOLLE loop webbing run the length of the belt, providing ample space for multiple accessory attachments. The 4331 provides a stable platform to attach a holster with a UBL (Universal Belt Loop) or Tactical Leg Shroud system. Lined with anti-bacterial and anti-microbial foam padding with a high-quality, durable and shatter-resistant buckle.

CUT-RESISTANT GLOVE W/ DYNEEMA® LINER

The SGX11 frisk and search glove features a digital embossed synthetic leather palm with our Extreme-Grip™ non-slip cradle for excellent grip and positive weapon control. The neoprene and spandex back provides a snug fit. Sizes: S-XXXL; CE certified/EN388 & EN420: 4542

PATROL DUTY BAG

The D1 Patrol Duty Bag is constructed of 840 denier, water-resistant nylon with PVC backing and features heavy-duty zippers and a removable nylon web shoulder strap. It has a spacious interior compartment with an adjustable divider and a removable rigid bottom, two zippered cargo pockets and six pen/pencil pockets. The exterior has two zippered cargo pockets, two flip-top pockets, and three open-top pockets for the ultimate in organization.

TACTICAL GUN MAINTENANCE SYSTEM

A universal gun care system that covers all the popular law enforcement firearms. This all inclusive kit cleans handguns, shotguns and rifles and is conveniently packaged in a rugged, zippered bi-fold pouch with internal compartments.

QUBL QLS UNIVERSAL BELT LOOP

The QLS Universal Belt Loop (QUBL) allows the user to easily raise and lower their holster from Low-ride, Mid-ride or High-ride holster height positions without any tools. Based on the VUBL design, the QUBL sits close to the body and is extremely adaptable, enabling quick attachment and detachment of gear from the QLS mounting platform.

DOUBLECUFF™ DISPOSABLE RESTRAINTS, 10 PACK

Disposable DoubleCuff™ restraints are a lightweight and effective tool for controlling both wrists and ankles. It has a tensile strength of more than 400 lbs. and provides ample space on its 1/2 in. (1.27 cm) width to write down subject information.

MODEL 8034 OPEN HANDCUFF CASE - PATROLTEK™

The Model 8034 PatrolTek™ Open Handcuff Case features a pull through style for easy access to the cuffs. Made of trilaminate construction with 600-denier woven finish. A dual web belt loop design conveniently accommodates both 2 in. (50 mm) and 2.25 in. (58 mm) belts widths.

STANDARD STEEL HINGE HANDCUFFS WITH NICKEL FINISH

2050H Standard Hinge Style features solid links to connect the cuffs as opposed to the roller chain. This product has heavy-duty, solid hinges for reinforced holding power. The hinged models provide greater subject control. Nickel finish. [order 2075H for Black finish]

TECS (TACTICAL ENFORCEMENT COMMUNICATION SYSTEM)

The Tactical Enforcement Communications System (TECS) gives operators a low visibility high-quality tactical earpiece with a modular option. TECS offers exceptional audio performance and since it was designed with modularity in mind, any TECS kit can be adapted in a cost-effective manner to include other types of mission-specific TCI headsets. Simply connect the headset to an existing TECS Push-to-Talk. There are a wide array of tactical headsets available for use with the Push-to-Talk (PTT) from the TECS kit.

MODEL 7385 7TS™ ALS® TACTICAL HOLSTER W/ QUICK RELEASE

This model is constructed of the innovative SafariSeven™ material, a unique nylon blend from DuPont™. SafariSeven™ is highly durable and practically impervious to the elements. This holster features the Automatic Locking System (ALS®). Once the weapon is holstered, it locks into place. When the ALS is de-activated by the thumb, a simple straight up draw is used.

MODEL 7355-SP10 7TS™ ALS® SINGLE STRAP TACTICAL HOLSTER W/ QUICK RELEASE

This open top tactical holster features the Automatic Locking System (ALS®). Once the weapon is holstered, it locks into place. When the ALS is de-activated by the thumb, a simple straight up draw is used. It features the single strap leg shroud allowing the holster to be worn higher on the thigh and a vertical leg strap with quick-release detachable leg harness.

MODEL 579 GLS™ PRO-FIT™ HOLSTER (WITH BELT CLIP)

The Model 579 GLS™ Pro-Fit brings the unique GLS™ (Grip Lock System) and SafariSeven™ together in a holster designed to fit a wide variety of guns. The Pro-Fit™ is customizable and adjusts to securely fit over 225 firearms. The 579 also features the GLS™, an innovative technology that automatically secures the weapon when holstered and releases it upon application of the middle finger with a standard shooting grip for a more intuitive and safer release. The holster body is constructed with SafariSeven™, a lightweight, state-of-the-art nylon blend is completely non-abrasive to a gun's finish, tolerant of extreme high and low temperatures, and easy to maintain. This holster features belt clip which easily detaches from belt and fits up to 2.25" belt widths.

MODEL 145 ALLUSION SUBDUE IWB HOLSTER

The 145 Allusion Subdue IWB Holster is small in size and designed to fit comfortable inside the waistband. Its anti-bacterial and microbial foam padding, prevents germs and odor from accumulating against the body. It's made with a premium full grain leather exterior with laminate synthetic liner for a smooth draw and long lasting wear.

MODEL 7360 7TS™ ALS® / SLS MID-RIDE, LEVEL III RETENTION™ DUTY HOLSTER

The Safariland® 7360 7TS™ Mid-ride holster is incredibly durable, yet remarkably lightweight. Constructed from SafariSeven™ the holster is built to withstand the elements, including extremes of heat and cold. In addition, the holster retains its structural integrity even when submersed indefinitely. On the inside of the holster, the SafariSeven material is non-abrasive to protect your firearm's finish. Additional protection is provided by raised surfaces which create airspace around the firearm, allowing dirt and moisture to quickly clear contact. The 7360 7TS Mid-ride holster has two retention systems, including the SLS (Self Locking System) and ALS® (Automatic Locking System.) To ensure a perfect fit, the 7360 is compatible with all Safariland holster mounting options, and the mid-ride belt loop feature allows the holster to ride close to the body.

MODEL 6360RDS ALS®/SLS MID-RIDE, LEVEL III RETENTION™ DUTY HOLSTER

The 6360RDS holster is specifically designed for firearms with red dot sights mounted to them. This holster with Automatic Locking System (ALS®) builds on the foundation of the Self Locking System (SLS). It locks the weapon in all directions upon holstering, it's operable with the thumb, and the weapon can be drawn straight out of the holster with no twisting required.

LIBERATOR® V ADVANCED DUAL COMMUNICATIONS HEADSET

The ultimate circumaural headphones, the Liberator® V is an exceptional convergence of communications and hearing protection with key technological advancements over previous models. 100% US designed and manufactured, it has our unique Dual Fuel feature - meaning it can run on either two AAA or one CR123 battery, and it is the only headset design with user audio profiles modifiable with simple keystrokes on the headset.

MODEL 8002 DOUBLE MAGAZINE POUCH - PATROLTEK™

The Model 8002 PatrolTek™ Double Magazine Pouch is contour molded for long lasting shape and precise fit. Features vertical or horizontal carry which offers versatility of use on the belt. Fits 2.25 in. (58 mm), belt widths.

745BL BELT CLIP

The 745BL Belt Clip is designed with a 3-hole pattern, allowing interchangeability among various Safariland® holsters. Made of durable nylon and clips on/off without having to remove the belt and/or other accessories. Fits belts with widths from 1.5" (38mm) to 2.25" (58mm) .Designed to lower holster by 2" (50mm).

MODEL 7235 DUTY BELT SYSTEM 2.25" (58MM)

The Model 7235 Duty Belt system includes duty belt, liner belt and 4 keepers. The outer belt features a durable 5-part laminate construction for firmness and holster support. It comprises a ballistic weave exterior with loop lining, and an internal polymer stiffener sandwiched between two layers of closed-cell foam. The liner belt has hook lining and is 1.5" (38 mm) wide. Dual snap keepers are 1" wide. The Coplok™ buckle provides extra security from inadvertent release.

TOUGH ON THE OUTSIDE, TENDER ON THE INSIDE.

7TS™ HOLSTER SERIES: RUGGED, NON-ABRASIVE PROTECTION
FOR YOUR FIREARM.

7TS™

THE NEXT GENERATION OF SAFARILAND®
HOLSTERS. TOUGH ON THE OUTSIDE. TENDER
ON THE INSIDE

The 7TS™ Series is extremely rugged and incredibly protective inside and out. Crafted from SafariSeven™, a proprietary DuPont™ nylon blend, these holsters are practically impervious to the elements. From extreme heat to frigid cold, SafariSeven requires virtually no additional care to keep working hard and looking great. Every 7TS Series holster is constructed with precision injection molding and is incredibly lightweight.

7 FEATURES OF THE 7TS

- Proprietary nylon blend protects your firearm's finish from marks and scratches
- Raised interior surfaces create airspace around the weapon to prevent dirt and moisture from coming in contact with your firearm
- Extreme heat tolerance; structurally sound at 300° F
- Incredibly cold tolerant; structurally sound at -50° F
- Can be submerged in water indefinitely and still maintain shape and performance
- Matte finish means an easy-to-maintain surface with minimal reflection
- Compatible with all Safariland® holster mounting options

ONE SOURCE.
ANY MISSION.

NON LETHAL

From pepper spray to batons to handcuffs, we have the broadest offering of crowd control and non lethal products to meet your needs no matter the situation. Also enquire about our Use of Force training programs and other courses that provide instructor and user level certification on all Less Lethal Equipment. AE Tactical also specializes in Riot Control Munitions backed by the industry leading Defence Technologies.

DEFENSE TECHNOLOGY®

DIRECT IMPACT® LE 40 MM EXTENDED RANGE MARKING CRUSHABLE FOAM ROUND

The 40 mm Direct Impact® LE Extended Range Round is a point-of-aim, point-of-impact direct-fire round and is intended to be used in applications that exceed the performance capability of the standard Direct Impact Round. An excellent solution whether you need to incapacitate a single subject or control a crowd. When loaded with a green marking agent, the Direct Impact LE can be used to indicate the aggressor in a crowd or riot situation to the team on the ground.

STINGER® 40 MM 60-CALIBER RUBBER BALLS ROUND

The Stinger® 40 mm 60-Caliber Round is most widely used as a crowd management tool by Law Enforcement and Corrections. The round contains approximately eighteen 60-Caliber rubber balls. It utilizes smokeless powder as the propellant and has more consistent velocities and tighter patterns compared to its 37 mm counterpart. It is suitable for administering a means of pain compliance over a greater distance than its 32-Caliber Stinger® counterpart. Used for routing crowds or groups that are mildly resistive.

40MM BEAN BAG ROUND

The 40 mm Bean Bag Round is most widely used as a crowd management tool by Law Enforcement and Corrections when there is a need to target individual instigators. Its has also been successfully used as a dynamic, high-energy single subject round for incapacitation or distraction. The round contains one silica sand-filled bag. It utilizes smokeless powder as the propellant and has more consistent velocities and tighter patterns compared to its 37 mm black powder counterpart.

RUBBER BALL DISTRACTION DEVICE

The Stinger® CS Rubber Ball Grenade is a maximum effect device that delivers four stimuli for psychological and physiological effects: rubber pellets, light, sound, and CS. The Stinger® Grenade is most widely used as a crowd management tool by Law Enforcement and Corrections.

UNIVERSAL TRAINING BAG

The Universal Training Bag is used for physical-encounter training tactics including simulated training scenarios and action-reaction response drills. When used, it significantly enriches learning during practice exercises while improving skills and reducing the risk of injury. It is constructed of durable Cordura® nylon for both static and dynamic training.

PEACEKEEPER II CLEAR RIOT SHIELD W/ AMBIDEXTROUS TRIANGLE HANDLE, 20" X 36"

The Peacekeeper 2036H riot shield is made of polycarbonate and is durable and lightweight. Triangular handle. Size: 24 in. x 48 in. Optional vinyl decals available for POLICE (H7000), SHERIFF (H7001), CORRECTIONS (H7002) and POLICIA (H7002).

X2 TASER ECD

A dependable piece of law enforcement technology, the TASER X2 incorporates agencies' most requested features such as a backup shot, dual lasers, and a warning arc to ensure accuracy and effectiveness. A backup shot removes any need to manually reload and improves safety and performance in the case of a missed shot or clothing disconnect. Dual lasers eliminate any aiming guesswork and enhance accuracy by allowing the user to see exactly where the top and bottom probes will enter a target.

TASER X26P

Safer and more effective than the X26E, the TASER X26P is a piece of law enforcement technology that's been improved inside and out, with an intuitive design, diagnostics, and charge metering.

AXON BODY 2: UNLIMITED HD. NO DISTRACTIONS.

Axon Body 2 builds upon its predecessor's powerful simplicity to bring you advanced technology with the same low maintenance. The single-unit on-officer camera now features upgraded capabilities like unlimited HD video, Wi-Fi video offload and industry-leading security enhancements.

CONTROL DEVICE EXPANDABLE SIDE-HANDLE ALUMINUM SHAFT BATON WITH POLYCARBONATE GRIP

This 21" Control Device side-handle baton offers maximum protection. It is the most field-tested baton for blocking, controlling and striking. The expandable design is combat ready with a flick of your wrist and closes easily with the push of a button. The Model 1121 has a Super Grip® handle for enhanced baton retention and a palm grip side-handle. It also features the Trumbull Stop for increased baton retention. Polycarbonate grip with anodized aluminum shaft. Color: Black.

AUTOLOCK® X3™ EXPANDABLE BATON

The AutoLock® X3™ expandable baton is the latest offering in the AutoLock baton family. Improving upon the original Monadnock® positive locking design, updates have been made to the cam and stainless steel ball bearing design which offers reliably consistent locking action and a more solid feel in the hand when performing or demonstrating techniques.

WALLBANGER™ BREACHING TOOL, DOORKEY™

The DoorKey™ when attached to the WallBanger™ pole system, may be angled to assist the operator's ability to create stand-off and remotely place the breaching chamber onto a door's surface in an attempt to defeat the locking mechanism of the door. The DoorKey™ will accept one or two Defense Technology® 7001CI charges into a blast chamber.

PEPPER SPRAY LESS LETHAL

The world's most widely used pepper spray in law enforcement and corrections. With our complete line of aerosols, we are able to offer an OC level of intensity ranging from .2% Major Capsaicinoids to 1.3% MC. The variations in the MC% means that you can now select the level of intensity of OC for the environment required.

FIRST DEFENSE® OC/CS MK-9 STREAM OC AEROSOL

The MK-9 features an easy to use trigger handle and will deliver 14 short bursts of OC at an effective range of 18-20 ft. This OC/CS aerosol product utilizes a stream delivery method providing a target-specific, strong concentrated stream for greater standoff.

12-GRAM LOW ROLL™ NON-RELOADABLE DISTRACTION DEVICE® W/SAFETY CLIP

The Non-Reloadable Distraction Device® unit incorporates an M201A1 type fuze with hex design gun steel body. This is compact version of the 8933 Low Roll body Distraction Device® is the newest version of the first reusable non-bursting canister that limits movement and rolling once deployed. The compact Distraction Device® fits safely in your hand and packs all the power of the full size Distraction Device®. This is a smaller, lighter device with the same output.

906 TAG-ELITE RIOT HELMET WITH GRID FACE SHIELD

Monadnock® non-ballistic polycarbonate tactical helmets offer the critical features and protection required by response teams today. They meet or exceed the NIJ 0104.02 (Riot) and NIJ 0105.01 (Crash) standards. Quick release buckle with high retention strap system and soft, flexible chin cup Injection molded neck protector with high density foam padding for added comfort Weight: Approximately 3.7 lbs.

EXOTECH® ELBOW & FOREARM PROTECTOR

The EFP150 Elbow and Forearm Protector provides hard shell protection and is designed to work with the ExoTech® System. Available in three sizes: XS/S, M/L, XL/XXL

DOUBLECUFF™ DISPOSABLE RESTRAINTS, 10 PACK

Disposable DoubleCuff™ restraints are a lightweight and effective tool for controlling both wrists and ankles. It has a tensile strength of more than 400 lbs. and provides ample space on its 1/2 in. (1.27 cm) width to write down subject information.

FERRET® 40 MM LIQUID BARRICADE ROUND, OC

The Ferret® 40 mm Barricade Penetrating Round is filled with an OC liquid chemical agent. It is a frangible projectile that is spin stabilized utilizing fins and barrel rifling. It is non-burning and used to penetrate barriers.

40MM TACTICAL 4-SHOT LAUNCHER

The Defense Technology® #1440 is a Tactical 40mm 4-Shot Launcher that features an expandable ROGERS Super Stoc™ and an adjustable Picatinny mounted front grip. The Tactical 4-Shot will fire standard 40mm Less Lethal ammunition, up to 4.8 inches in cartridge length. Lightweight and tactical, this weapon is NOT designed to fire 40mm High Velocity HE ammunition. The Picatinny Rail Mounting System will accept a wide array of enhanced optics/sighting systems.

M1012/3021M 12-GAUGE NL POINT CONTROL CARTRIDGE

- Direct fire, short range 12-Gauge round
- Fin stabilized accuracy
- Specifically developed for routing, protecting chemical devices or targeting instigators

M1013/3020M 12-GAUGE NL CROWD DISPERSAL CARTRIDGE

- Direct fire, short range 12-Gauge round
- Obtain compliance from a safe distance
- Specifically developed for routing, protecting chemical devices

40MM DIRECT FIRE MUNITIONS WITH PAYLOAD OPTIONS

- Projectile incorporates unique Collapsible Gel Head design
- Accurate to 131 feet / 40 meters
- Payload options deliver irritant or marking payloads in addition to blunt trauma
- Passed human effects assessments for safety and effectiveness

40MM DIRECT FIRE MUNITIONS WITH PAYLOAD OPTIONS

- Projectile design has unique user-adjustable gas-bleed feature
- Allows velocity and kinetic energy to be adjusted for two design points, addressing close-in and extended range engagements
- Standard range velocity allows for engagements of 1.5 - 40 meters
- Extended range velocity allows for engagements of 40 - 70 meters
- Crushing nose dampens blunt trauma while delivering payload

40MM DIRECT FIRE MUNITIONS WITH PAYLOAD OPTIONS

- Accurate to 131 feet / 40 meters
- Crushing nose dampens blunt trauma while delivering payload
- Passed extensive human effects assessments for blunt impact and penetration

INSTANTANEOUS BLAST OC GRENADE

The Instantaneous Blast OC Grenade is designed for indoor or outdoor use; this grenade's powder is expelled through splits on the canister. This device is well suited contained portion of a prison yard or area. This 6.12 in. by 2.62 in. grenade will deliver approximately 1.5 oz. of active agent.

RIOT CONTROL CONTINUOUS DISCHARGE GRENADE, CS

The Riot Control CS Grenade is designed specifically for outdoor use in crowd control situations with a high volume continuous burn that expels its payload in approximately 20-40 seconds through four gas ports located on the top of the canister. This grenade can be used to conceal tactical movement or to route a crowd. The volume of smoke and agent is vast and obtrusive. This launchable grenade is 6.0 in. by 2.35 in. and holds approximately 2.7 oz. of active agent.

MILITARY-STYLE SAF-SMOKE™ GRENADE

The Saf-Smoke™ Grenade was designed for training, but may also be used in operations. The Saf-Smoke™ Grenade offers the same approximate burn times as the Spede-Heat™ Grenade in CN or CS and the Riot Control Grenade in CN or CS. The similar burn times may make it the appropriate choice for training or simulation deployment of chemical agent canisters. The Saf-Smoke™ formulation is considered to be less toxic than Hexachloroethane (HC) smoke. The Saf-Smoke™ Grenade emits a very white smoke.

40MM DIRECT FIRE MUNITIONS WITH PAYLOAD OPTIONS

- Accurate to 230 feet / 70 meters
- Crushing nose dampens blunt trauma while delivering payload
- Passed extensive human effects assessments for blunt impact and penetration
- Do not use at distances closer than 33 feet / 10 meters

40MM RELOADABLE TRAINING ROUND

- Provides the same point of impact accuracy as the 40mm munitions it simulates
- The most cost-effective way to conduct training
- Reloading the munitions takes seconds and one hex key
- For use on inanimate targets
- Available in 50-Shot or 250-Shot Kits
- Available in Standard Range or LE Extended Range

37MM ROUNDS 37/40MM ROUNDS 40MM ROUNDS

- Comprehensive offering of area and direct fire munitions
- Available in 37mm, 37/40mm or 40mm munitions
- Widely used by corrections and law enforcement agencies for crowd control or single subject compliance

12-GAUGE ROUNDS

- Comprehensive offering of area and direct fire munitions
- Widely used by corrections and law enforcement agencies for single subject compliance

LOW ROLL™ 12-GRAM DISTRACTION DEVICE®

- Produces 175 dB of sound output at 5 ft.
- Produces 6-8 million candelas for 10 milliseconds
- Utilizes standard military-style M201A1 fuze
- Hex design reduces rolling when deployed
- Available in both non-reloadable and reloadable options
- Available in Humidity-resistant versions

LOW ROLL II™ 11-GRAM DISTRACTION DEVICE®

- Produces 175 dB of sound output at 5 ft.
- Produces 6-8 million candelas for 10 milliseconds
- Utilizes standard military-style M201A1 fuze
- Smaller profile, superior performance
- Hex design reduces rolling when deployed
- Only available in non-reloadable option
- Available in Humidity-resistant versions

DISTRACTION DEVICE® RELOADS RELOADABLE DISTRACTION DEVICE®

- Defense Technology® offers a variety of reload options for Distraction Device® munitions.
- Produces 175 dB of sound output at 5 ft.
 - Produces 6-8 million candelas for 10 milliseconds
 - Utilizes standard military-style M201A1 fuze
 - 7001CI intended for use with WallBanger™ breaching tool
 - 7007 reduced charge 4-Gram reload
 - Available in humidity-resistant versions

STINGER® RUBBER BALL GRENADES

- Maximum effect device delivering three stimuli for psychological and physiological effects: rubber pellets, light and sound
- Widely used by law enforcement and corrections for crowd management and compliance
- Available with 32 Cal. or 60 Cal. Rubber Balls

RUBBER BALL BLAST GRENADES

- Maximum effect device delivering three stimuli for psychological and physiological effects: light, sound and payload
- Widely used by law enforcement and corrections for crowd management and compliance

TKO 12-GAUGE BREACHING ROUND

- Disintegrates on contact
- Instantly delivers full energy to door/lock hardware as it turns to dust
- Safe to use at close distances

12-GAUGE MUZZLE BANG / LAUNCHING CARTRIDGE

- Muzzle bang produces 170 dB of sound output
- Crowd control use for warning, intimidation or diversion
- Launching cartridge used in conjunction with 1370 Launching Cup
- Project Pocket Tactical Grenades further than hand throwing

1425 40MM TACTICAL SINGLE SHOT LAUNCHER

- Lightweight (3.5lbs)
- Low cost
- Lateral single point sling mount
- Adjustable integrated front grip/light rail
- Picatinny top rail w/bead sight
- Single/Double action S&W trigger group
- Ambidextrous breech release
- 14" barrel
- Precision manufactured by Lewis Machine & Tool exclusively for Defense Technology
- NTOA member tested and recommended

WHO WE ARE

You've known us as TASER since 1993—in 2017 we changed our name to Axon. We did this to reflect the breadth of our public safety solutions. We have the privilege to work with thousands of law enforcement agencies across the world to address and solve public safety's biggest challenges. Axon is making significant strides in digital policing and with continuous innovations in our solution we are helping police forces simplify their workflows and drive savings with seamless integration.

THE AXON NETWORK

Axon is committed to pushing the boundaries of technology from Smart Weapons, like our TASER devices, to body-worn cameras and digital evidence management systems, every product works together as a single network. **Seamlessly integrated. Completely connected.** And designed to help police, sheriffs and law enforcement agencies everywhere make the world a safer place.

AXON SOLUTIONS

AXON BODY 2

Axon Body 2 takes powerful simplicity to the next level. The single-unit design is equipped with capabilities like unlimited HD video, advanced audio, Wi-Fi video connectivity and industry-leading security enhancements. It's part of the growing network that lets you act with confidence by connecting devices, apps, and people.

AXON BODY 3

With Axon Body 3, you'll capture greater truth with its incredible low-light performance and reduced motion blur. Trust your camera with complete on-device encryption and Axon Body 3's sleek but super-strong design, built to survive even the harshest conditions. And now, react in real-time to active intelligence with features like gunshot detection and the ability to upload critical evidence wirelessly without ever needing to dock the device.

TASER X2

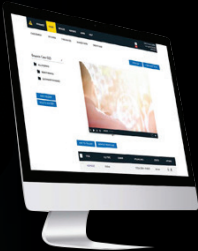

Designed by law enforcement for law enforcement, the TASER X2 incorporates agencies' most requested capabilities, such as a backup shot, dual lasers and the ability to display a warning arc without removing the cartridge. A dependable piece of law enforcement equipment that's feature-rich, simple to use, and easy to transition to from previous models.

TASER 7

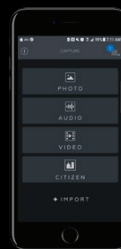

The most effective CEW ever gives officers the confidence to de-escalate dangerous situations, provides improved integration to the Axon network for optimized workflows, and further demonstrates your commitment to keeping communities safe with reality-based training that improves outcomes.

AXON Evidence.com

Manage all of your digital Evidence from capture to courtroom. Evidence.com is a scalable, cloud-based system that consolidates all of your digital files, making them easy to manage, access and share while maintaining security and chain of custody.

AXON CITIZEN

Community Evidence, now part of the Axon network. For too long, agencies have struggled to securely receive evidence from the community and determine what content is useful for an investigation. Axon Citizen, makes it easier for community members to submit photos and videos of an incident and for your agency to manage that media in Evidence.com, helping lead to more prosecutions.

TASER X2 - Blackhawk! Holster

The Blackhawk! Holster is available in Right Hand and Left Hand models. BLACKHAWK! is a trademark of the BlackHawk Industries Product Group Unlimited LLC.

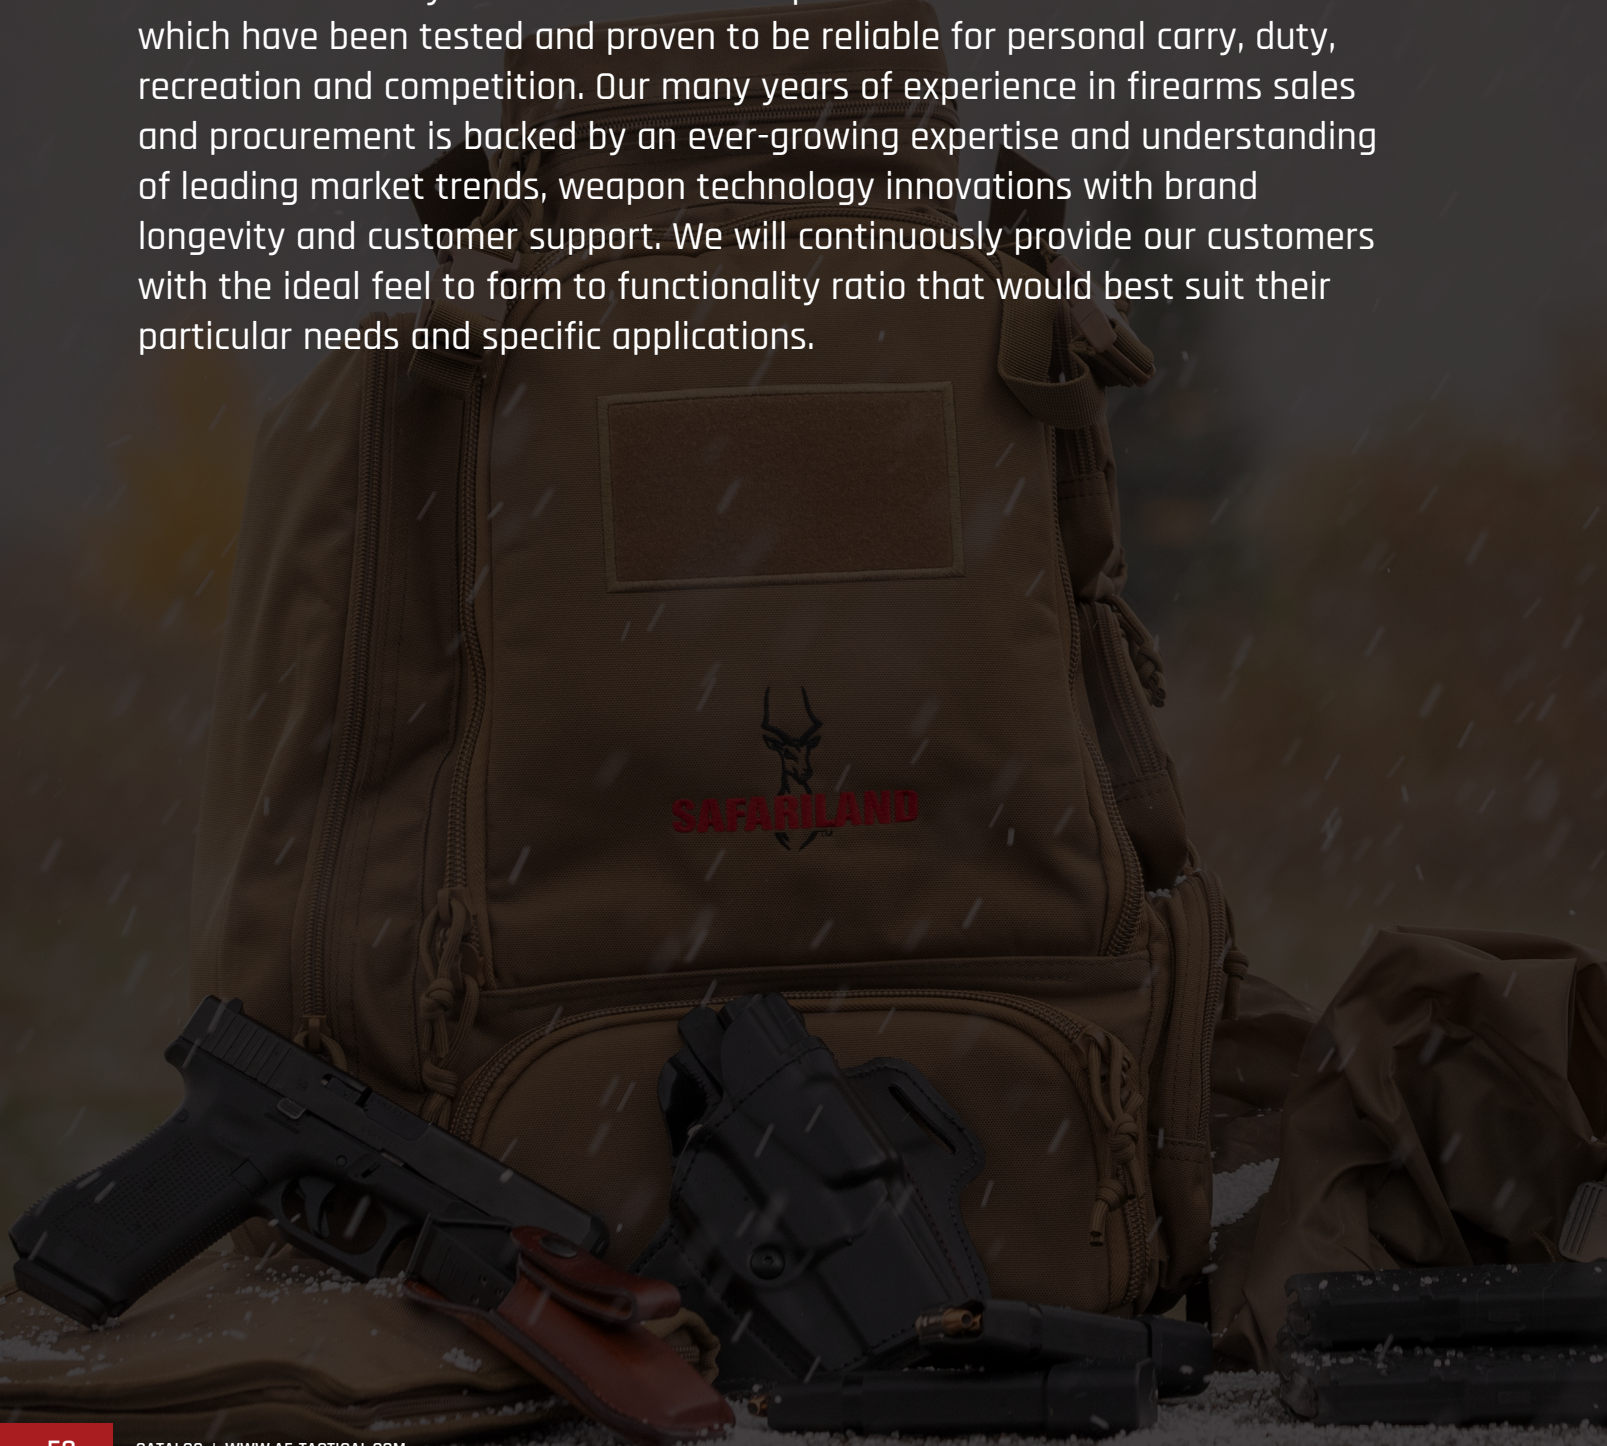

TASER 7 Safariland Holster

The TASER 7 Safariland Holster is available in Right Hand and Left Hand models Safariland: Trademark of Safariland, LLC.

FIREARMS & AMMUNITION

AE Tactical offers you an exclusive line-up of world renowned firearm brands which have been tested and proven to be reliable for personal carry, duty, recreation and competition. Our many years of experience in firearms sales and procurement is backed by an ever-growing expertise and understanding of leading market trends, weapon technology innovations with brand longevity and customer support. We will continuously provide our customers with the ideal feel to form to functionality ratio that would best suit their particular needs and specific applications.

P320 XCOMPACT

Ergonomics and performance have become the standard of the P320 XSeries. Now, all of these features are available in an compact size. The P320 XCompact features a completely redesigned modular polymer XSeries grip with a reduced fastback carry cut and a low-profile internal magwell. Combined with the extended beavertail and high undercut trigger guard, the XCompact offers ultimate comfort and concealability and improved recoil control. The 3.6" barrel and XSeries slide with enhanced serrations come equipped with the X-Ray3 day/night front sight with rear night sight plate assembly.

P365 XL

The P365 redefined what a concealed-carry pistol should be, now the new P365 XL is doing it again. The perfect balance of micro-compact concealability with full-size shootability the P365 XL packs 12 + 1 or available 15 + 1 capacity in a micro-compact, highly concealable size yet maintains the comfort and shootability of a full-size pistol. The first P365 offered in the XSeries family, the XL comes standard with an extended slide, 3.7" barrel, and the brand new 365 XSeries grip module with extended beavertail and integrated magwell.

P320 NITRON FULL-SIZE

The P320 Full-Size offers a smooth, crisp trigger to make any shooter more accurate, an intuitive, 3-point takedown and unmatched modularity to fit any shooter and any situation. Its full-size frame is ideal for target shooting, home defense and any scenario where shootability and sighted accuracy are of the highest priority. This modular, striker-fired pistol features a full-size grip, full length slide, and choice of contrast or SIGLITE Night Sights. Available calibers include 9mm, .357SIG, .40S&W and .45ACP. Safety features include a striker safety, disconnect safety.

M17-COMMEMORATIVE

SIG SAUER, Inc. is pleased to announce the limited release of the M17-Commemorative Edition of the U.S. Army's M17 official service pistol, a variant of the SIG SAUER P320. The M17-Commemorative pistol shares the same components, coatings, and markings as the firearm that was awarded the U.S. Army contract for the modular handgun system (MHS). Only 5,000 M17-Commemorative Edition pistols have been produced for sale, and each SIG SAUER M17-Commemorative pistol is serialized M17-0001 through M17-5000 and includes the Army's required unique identifier (UID).

**PERFORMANCE CENTER®
PORTED M&P® 9 SHIELD™
M2.0™ EVERY DAY CARRY KIT**

The reality of protection is that you never know when you'll need it. We took the power and features of our full sized M&P pistols and put them into a slim, lightweight pistol the size of your hand. The M&P Shield is an easy to conceal pistol that offers professional grade features with simple operation and reliable performance day or night. The Performance Center Ported M&P9 Shield offers discerning shooters premium features including a factory ported barrel and slide. One million Shield owners can't be wrong.

**M&P® 9 SHIELD™ DON'T
TREAD ON ME LIMITED
EDITION**

The reality of protection is that you never know when you'll need it. We took the power and features of our full sized M&P pistols and put them into a slim, lightweight pistol the size of your hand. The M&P Shield is an easy to conceal pistol that offers professional grade features with simple operation and reliable performance day or night.

**M&P® 9 SHIELD™ EZ® MANUAL
THUMB SAFETY**

Built for personal and home protection, the new M&P9 Shield EZ pistol is the latest addition to the M&P M2.0™ family and features an 8+1 round capacity and a 3.675" barrel. The M&P9 Shield EZ pistol ships with two 8 round magazines that feature a load assist tab for quick, easy loading, as well as a picatinny-style equipment rail to accommodate accessories. The pistol also features an optimal M&P pistol 18-degree grip angle for a natural point of aim, white-dot front and adjustable white-dot rear sights, and a light, crisp trigger.

**M&P® 45 M2.0™ TRUGLO®
TFX™ SIGHTS**

The M&P M2.0 pistol, the newest innovation to the respected M&P polymer pistol line. Designed for personal, sporting, and professional use, the M&P M2.0 delivers an entirely new platform, introducing innovative features in nearly every aspect of the pistol, including trigger, grip, frame, and finish. Highlights of the M&P M2.0 pistol include an extended stainless-steel chassis and a low barrel bore axis for reduced muzzle rise and faster aim recovery. The M&P M2.0 pistol further improves performance with a fine-tuned, crisper trigger, lighter pull and a tactile and audible reset. The pistol, available in three calibers, includes an aggressively-textured grip and four interchangeable palm swell inserts for optimal hand-fit and trigger reach.

GLOCK 19 GEN5

The GLOCK 19 Gen5 pistol in 9 mm Luger is ideal for a more versatile role due to its reduced dimensions. The new frame design without finger grooves still allows to instantly customize its grip to accommodate any hand size by mounting the different back straps. The slide has the superior GLOCK hard-surface finish nDLC in non-reflective black. It comes with front serrations (FS) which provide an additional tactile surface choice when manipulating the slide giving the operator positive traction even with wet or sweaty hand.

GLOCK 26 GEN5

The GLOCK 26 is now available in GLOCK's latest generation of perfection. A popular option for concealed carry, the GLOCK 26 Gen5 now features the GLOCK Marksman Barrel (GMB), delivering increased accuracy with polygonal rifling and an improved barrel crown. Other features include the removal of the finger grooves, an ambidextrous slide and the superior GLOCK hard-surface finish nDLC.

GLOCK 43X SILVER SLIDE

The silver finished slide of the G43X combines its short and slim dimensions to the extended slim frame size of the G48. A perfectly balanced slim fit for nearly all hand sizes with a satisfying magazine capacity and high concealability. The magazine capacity of the slim D1 magazine of the G43X is 10 rounds. It comes with a silver colored nPVD coated slide with front serrations and features the GLOCK Marksman barrel.

GLOCK 19X

GLOCK's first ever "Crossover" pistol, the GLOCK 19X, combines the best features of two of its most popular and most trusted field-tested platforms. The full-size GLOCK 17 frame and the compact GLOCK 19 slide have joined forces to produce the ideal pistol for all conditions and all situations. The 19X comes in the coyote color with the first-ever factory colored slide, finished with an improved nPVD slide coating to prevent corrosion.

P320 XFIVE LEGION

The P320 XFIVE Legion is the ultimate handgun for the serious shooter. The weight was increased to 43.5oz thanks to the innovative TXG tungsten-infused grip module. This new product is the first of its kind in the firearms industry with the weight of steel and the flex of polymer, reducing muzzle flip by up to 50%. The trigger pull of the XFIVE Legion is up to 30% lighter with the new skeletonized trigger, which increases shooting speed and accuracy. The recoil system has been upgraded to use a solid steel guide rod and a 14lb 1911-style spring, with an additional 12lb spring included.

M2.0 5" BARREL PRO SERIES

Precision built to be the most accurate and reliable firearms, M&P pistols are an experience you have to feel to believe. Durable and comfortable, they are capable of handling as many rounds as you are. Engineered with an attention to detail and superior ergonomics; built on high-strength polymer frame reinforced with a rigid stainless steel chassis. M&P pistols are the new standard in reliability when your job is to serve and protect and your life is on the line.

GLOCK 34 GEN4 MOS

The GLOCK 34 Gen4 in MOS configuration combines an extended barrel and slide and elongated distance between sights with the MOS concept, making it easy to mount a reflex sight on the pistol's slide without the need for a new slide or separate mounting system. The Modular back strap system makes it possible to instantly customize its grip to accommodate any hand size. The reversible magazine catch makes it ideal for left and right-handed shooters.

STACCATO XL

Introducing the Staccato XL, the pinnacle of shooting excellence and the most accurate, fastest, flattest shooting pistol in our lineup. The legacy of champions is built into every 2011 with 25 years of evolution and refinement going into the Staccato XL.

SIG MPX K

The choice of professionals worldwide, the MPX K offers a closed bolt gas piston system that is ultra reliable and durable. As with all MPX, the K is modular allowing for multiple handguard and barrel lengths and is ready to go for suppressor use. For 2019, the K now features the SIG PCB folding brace which allows the K to fold into an ultra-compact size and be operable in the folded position. The K also features an updated M-Lok handguard which is available as accessories in multiple lengths for suppressor coverage. Finally, the K is upgraded with the ultra smooth, ultra-fast Timney Trigger. Co-designed by Timney and SIG, this trigger offers the Timney performance you have come to expect with the ultimate reliability to make it survive the punishment of a sub gun platform. If you are looking for the ultimate modular sub gun, look no further than the MPX K from SIG SAUER.

SIG 716 G2 PATROL

Familiar handling, unfamiliar power, SIG SAUER has taken the proven features of the SIG 516 and applied them into a potent AR-based rifle chambered in 7.62 x 51mm. Utilizing the short stroke piston-driven operating system, an M1913 Mil-Std rail, free-floating barrel, aluminum forend, and telescoping stock, the SIG 716 is the rifle of choice when you require the power of a larger caliber carbine.

Smith & Wesson

M&P[®] 15X WITH M-LOK[®]

M&P15 Rifles are the ideal modern sporting rifle. Built to perform multiple uses under various conditions, M&P15 Rifles are as versatile as they are reliable. Engineered for a wide variety of recreational, sport shooting and professional applications, M&P15 Rifles are easy to accessorize, but hard to put down. M&P15 Rifles are lightweight and rugged embodying the best combination of function and form.

Smith & Wesson

PERFORMANCE CENTER[®] T/C[®] LRR BLACK 308 WINCHESTER

Co-developed by the Performance Center[®] and Thompson/Center Arms[™] for extreme long range shooting, the Performance Center[®] T/C[®] Long Range Rifle is built on a stable, adjustable aluminum chassis and it is available in popular long range shooting calibers. Built for the demanding long-range shooter.

Remington

REMINGTON 870 EXPRESS TACTICAL

The Model 870™ Express® Tactical with XS® Ghost Ring Sights is optimized for rapid target acquisition and precise shot placement with the XS blade sight and XS Ghost Ring sight rail (fully adjustable for windage and elevation), which accepts optics and sight systems as well. Both models have black synthetic stocks and fore-ends with sling swivel studs. Receivers are drilled and tapped.

Remington

REMINGTON 870 DM TACTICAL SHOTGUN

Featuring a detachable magazine system and fire controls designed from the ground up available with 3- and 6-round mags. It's the fastest response time of any pump shotgun in history, and the ultimate choice for a home defense shotgun. The Model 870 DM features 6-round 12-gauge magazine, bead sight, black synthetic stock, corn cobb fore-end, Supercell recoil pad.

 **Benelli**

BENELLI M4 TACTICAL SHOTGUN

The patented A.R.G.O. piston-driven system developed for the M4 Tactical shotgun. The Auto-Regulating Gas-Operated (A.R.G.O.) system is a simple, self-cleaning, piston-driven action. The A.R.G.O. system is a unique, short-stroke, dual-piston design developed for the M4 Tactical shotgun in 1998 for the U.S. Marine Corps. It was later adopted as the U.S. Joint Services combat shotgun—and remains so today.

Remington

REMINGTON 870 EXPRESS TACTICAL 6-POSITION STOCK

Built on the ever-reliable Model 870 platform, the Model 870 Express Tactical Magpul, Model 870 Express Tactical 20-gauge, and Model 870 Express Tactical 6-Position, join our line-up of tactical workhorses for 2018. With features like 18.5", 6 + 1 capacity and adjustable tactical stocks, the Model 870 Express Tactical 6-Position delivers the edge you can count on when you need it most.

INNOVATION NOT IMITATION™

ROME0ZERO 1X18 MM

The fastest, most accurate, ultra-compact micro reflex sight - the ROME0Zero™ has been optimized for everyday concealed carry and pistols with slim slide profiles. The sight features a ruggedized, WeaponsGrade™ textured polymer body and the SpectraCoat™ HD Polymer lens system. The ROME0Zero enables rapid target acquisition in an everyday carry package at an iron sight price.

ROME03 MAX 1X30 MM

Developed in collaboration with Team SIG Captain, Max Michel, and already established as an advantage in the 2019 competitive season. The ROME03MAX is a compact, open reflex sight featuring a 30mm wide, round lens design for superior field-of-view, a special red-notch filter for vivid red dot and unrivaled optical clarity, with a 3 or 6 MOA dot size for rapid target engagement, twelve illumination intensity levels, MOTAC activation, and up to 20,000 hours of runtime.

ROME04

ROME04 is the ultimate red-dot sight when fast, accurate target acquisition is a must. Whether it's a moving target, dangerous game at full charge, or a fast breaking tactical situation at close quarters. When things are moving fast and you need to get on target in a hurry, your sight has to work faster. No matter the lighting conditions, weather conditions, or terrain, the ROME04 red-dot sight has you covered when it counts. You can shoot with confidence with both eyes open, on target yet aware of the situation at all times as it unfolds. And because it is a SIG SAUER®, you know the ROME04 is as tough and dependable as our firearms.

ROME04 H 1X20 MM

Designed for modern semi-automatic pistols, MSR platforms and shotguns. The ROME04H comes standard with solid and see-through lens covers, a quick release mount, Ballistic Circle-Dot and Ballistic Circle QuadPlex reticles options. Users can also select from 4 different integrated reticle options (Dot, Circle-Dot, Dot with Holds, Circle-Dot with Holds) with 50,000+ hour battery life.

ROME05 1X20 MM (HIGH MOUNT ONLY)

ROME05 compact red dot sights provide civilians and armed professionals a robust 1x aiming solution for any situation. Ultra-low parallax so point-of-aim is point-of-impact and the red dot remains parallel to the bore of your firearm, no matter what your viewing angle is relative to the optical axis of the sight. Unlimited eye-relief allows you to acquire the aiming point and the target regardless of the position of your eye behind the sight.

ECHO3

The most innovative, direct view thermal sight in the world. The ECHO3 uses SIG SAUER® BDx® technology and can record both video and images in 11 different color palettes.

**SELLIER & BELLOT 9MM LUGER
NONTOX TFMJ 124 GRS**

After firing the cartridge is free from toxic exposure to barium, lead, mercury, antimony. It does not pollute the environment, does not endanger the shooter's health with combustion products, and does not leave harmful residue in the gun. It ensures safe shooting in closed premises and on target ranges. Unique patented primer design.

**SELLIER & BELLOT 9MM
LUGER JHP 124 GRS**

Jacketed Hollow Point bullet. Standard 2 piece bullet construction designed for reliable feeding and function in a wide variety of firearms. An excellent defensive projectile.

**SIG SAUER 40S&W, ELITE
V-CROWN, JHP, 165GR**

This Jacketed Hollow Point .40 S&W Caliber round with its ELITE V-CROWN technology is design based on our years of experience at meeting the needs of the modern law enforcement and civilian shooter with 50 rounds at 165 grains each this should give you the stopping power you need to when you need it.

**SELLIER & BELLOT
CORONA 12/70**

S&B Plastic shells are offered in wide variety of configurations to meet the needs of hunters and clay target shooters.

M1 carrier powered with SX™ ballistics

The Armor.

Built to stop bullets. Designed for maximum flexibility and comfort. Lightweight, ergonomic carriers are engineered so you can do your job at maximum performance. With ballistics ranging from the lightest weight level IIIA on the market to the most flexible.

Safariland®. The performance you've come to expect. It's what we do.

HARDWIRE®

This soft armor is a combination of perfectly interlaced multi-functional fibers and game changing polymer technology. Hardwire's proprietary manufacturing technology equates to the lightest armor in the world, with unprecedented stopping power.

SUMMIT™

Providing unparalleled comfort and a soft, flexible feel, this panel provides exceptional ballistic performance and reduces heat buildup with the use of advanced, exclusive materials. It is unsurpassed in providing heightened protection against an array of special threats.

MATRIX®

One of our most economical ballistic packages. This package is an excellent choice for officers who demand the perfect balance of comfort, value and flexibility in a hybrid design.

PRISM® MT

Offers an unprecedented degree of protection against correctional threats. Combines several of the most advanced woven aramid corrections materials available for protection against circular penetrators and multi-threat protection for both stab and ballistic threats.

SX™

The thinnest, lightest and one of the strongest ballistic panels available. Born of breakthrough technologies and exclusive materials, SX offers unmatched performance for comfort, flexibility, durability and strength in a hybrid design.

XTREME®

Versatile and flexible, this high-performance ballistic panel delivers all-condition comfort with maximum stopping power. Designed to reduce trauma upon impact, it features a contoured, biomorphic design with advanced perimeter stitching to enhance performance.

M2 COVERT CARRIER

The M2 carrier is the ideal balance between functional design, durability, comfort and value. Made of a highly durable, washable hexagon ripstop fabric, the M2 carrier has a front opening zipper for easy installation of ballistic panels. For improved comfort, the vest incorporates a “Zero Edge” no binding design around the perimeter of the carrier. Other highlights include a new ergonomic welded elastic strap system, and a nylon based antimicrobial mesh liner to ensure comfort and mobility for all day wear. Full summary of features below.

F1 COVERT CARRIER

- Second skin construction for ultra concealability
- Ergonomic design for greater mobility in any direction
- Pull over one piece with no zippers
- Maximum comfort for all day use
- Internal side entry for easy panel insertion
- Light weight compression
- Breathable high performance laminated 4-way stretch fabric
- Water-resistant
- High performance cooling spacer mesh liner reducing temperature by 3-4 degrees
- Additional finish to inhibit growth of odor-causing bacteria

MODEL DT206C - NIJ 0101.06 TYPE III STAND ALONE

PROTECH® Tacticals newest low-cost and high performing plate - the DT206C is a stand-alone Type III plate capable of defeating the M80 round as well as the most prevalent round in today's market- the M855 Green Tip. Weighing approximately 4.1 lbs. in the 10" x 12" Shooters Cut, the DT206C is designed with a multi-curvature and is 1.2" thin.

CAV™ (CORE ASSAULT VEST) CARRIER

The Core Assault Vest (CAV) is a high-speed carrier with features and user customizations that make it ideal for tactical teams. Featuring 1000 denier nylon webbing, the CAV can be customized with an array of pouches and accessories offered by PROTECH Tactical. The low-profile elastic side closure system can be scaled with an optional modular webbing cummerbund, increasing pouch attachment capability.

TAC AR™ (ASSAULT RACK) WITH ADVANCED WEBLESS SYSTEM (AWS)

The new TAC AR™ (Assault Rack) with Advanced Webless System (AWS) features state-of-the-art Honeywell Spectra® Composite material which reduces the overall carrier weight by an impressive 20%. The AWS benefits don't stop there. The new Spectra material also has a break strength that is over 15% stronger than standard 1000 Denier Nylon.

TITAN™ ASSAULT VEST WITH ADVANCED WEBLESS SYSTEM

The TAV AWS (Titan™ Assault Vest with Advanced Webless System) is PROTECH® Tactical's newest rendition of the popular Titan Assault model. A unique combination of the legacy Titan Assault and the Titan Assault Enhanced models, with the integration of the lightweight and innovative AWS platform, the TAV AWS meets the needs of teams looking for a dynamic full coverage entry vest.

BARK-9™ CANINE ARMOR CARRIER

PROTECH®'s Bark-9™ carrier comes with MR01 protection. The improved carrier features enhanced adjustability, a restraint handle with two D-rings for adjustable leash attachment, two plate pocket and two ID attachment platforms for identification patches.

SHIFT 360™

The SHIFT 360™ is a sleek and innovative plate rack design that offers the operator ultimate scalability based on mission-specific requirements. The SHIFT 360™ can be worn in its most basic form as a plate rack system with the ability to build protection by adding optional accessories to transform into a fully loaded tactical carrier.

Optional ballistic accessories include; panel inserts, outer cummerbund, yoke and lower abdomen/spine protection. In addition, accessories such as hard armor plates, ballistic belts, tactical pouches and vest support system can compliment the SHIFT 360™'s platform even further.

TAC PR™ (PLATE RACK) WITH ADVANCED WEBLESS SYSTEM

Active-shooter and first responder incidents are changing the way officers operate. With a wide range of potential threats and situations, PROTECH Tactical offers an array of first-responder plate racks to suit your performance requirements and needs.

PROTECH®

DELTA™ 4

An ACH/Warrior style ballistic helmet offering unparalleled protection & comfort

- Tested against NIJ 0106.01 protocol, modified to address Type IIIA rounds and velocities, 9mm & .44 magnum
- 17 gr. V50 ≥ 2058 ft/s (627 m/s) • Warrior/ACH (brimless) style: Full-, mid- & high-Cut • Aramid ballistic material
- Compatible with all retention and suspension systems offered including: Team Wendy® CAM Fit™, EPIC Air™, R2S™ Ratchet, mesh crown and padding suspension
- Sizes fit Small through XLarge

DELTA X TACTICAL HELMET

Setting industry standards, the Delta line of PROTECH Tactical helmets is synonymous with ergonomic comfort, superb ballistic performance and field tested results. With the addition of the Delta X, PROTECH continues to expand their product offering, all with the end-user in mind.

DELTA™ 5

NIJ 0106.01 compliant, modified to address Type IIIA rounds and velocities, the Delta 5 was developed to provide the user a lightweight solution for a ballistic helmet at approximately 30% less weight than traditional ACH style helmets. Comprised of a polyethylene and aramid composite, the Delta 5 can withstand assault from 17 gr. fragments and type IIIA handgun threats, 9mm and .44 magnum.

PASGT

Full coverage ballistic helmet for Personnel Armor System Ground Troops

- Tested against NIJ 0106.01 protocol, modified to address type IIIA rounds and velocities, 9mm & .44 Magnum
- 17 gr. V50 ≥ 2058 ft/s (627 m/s)
- Personnel Armor System Ground Troops design - Full-cut with brim

MESH CROWN SUSPENSION SYSTEM

Our patriarch suspension featuring a 4-point height-adjustable, floating mesh crown component with chin strap

TEAM WENDY® CAM FIT™ RETENTION

- CAM Fit is the most efficient yet durable retention system available, based on a dial ratchet mechanism for quick and secure placement
- CAM-lock™ sliders allow for one-handed adjustability
- Bod® Closure system stabilizes helmet weight by distributing a light, even pressure around the head
- Adjustment straps and chin cup designed for a close, comfortable fit to the wearer's face

TEAM WENDY® EPIC AIR™ SUSPENSION

- EPIC Air takes helmet liner systems to a whole new level with lightweight features, ultimate comfort design and blunt trauma protection
- Zorbium™ impact liner features Milspec moisture wicking and loop fabric with anti-microbial comfort pads
- Air channels allow for air flow and temperature control
- Exceeds ACH blunt impact requirements (AR/PD 10-02)

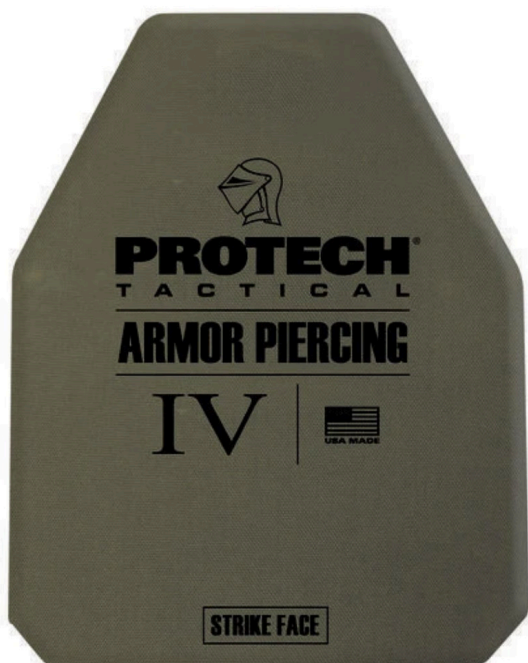

PROTECH ENTRY 1 FR X - TYPE IIIA SHIELD

From the leader in ballistic shield manufacturing, PROTECH® Tactical is excited to launch the X Series of lightweight Ballistic Shields.

This unique product offering boasts one of the lightest handgun threat shields currently available, all in part to a patent-pending design.

The X Series is born from an innovative process of molding the lens cap into the body of the shield as the ballistic material is pressed, resulting in the elimination of traditional points of weakness, excess hardware and components, ensures overall ballistic integrity and reduces weight.

The Entry 1 FR X is based off of the original Entry 1 FR. Featuring long-weapon cut-outs and a lightweight build, this model is designed for high-speed entry coverage.

PROTECH MODEL 2014MC TYPE IV STAND ALONE SHIELD

Armor piercing protection in a multi-curve design - the 2014MC is PROTECH® Tactical's latest type IV offering, which brings an economical solution to first responder, patrol and tactical teams. Weighing 7.7 lbs. (3.4 kg) in a 10"x12" shooters cut, the 2014MC is an ideal stand-alone offering for users facing rifle or armor piercing risks.

A triple curvature design provides a contoured fit to the user's upper torso and back.
