2018 NATIONAL INSURANCE CONFERENCE

INVITATION

The Chairman, Mrs. Funmi Babington-Ashaye and members of the Insurance Industry Consultative Council (IICC) have the special honour of welcoming all delegates and special guests to the 2018 National Insurance Conference, an event that has remained one of the most reputable platforms for discussion of issues relating particularly to the place of insurance in national economy and other issues germane to the nation's socio-economic growth. The Conference holds from Sunday July 8 to Tuesday July 10, 2018 at the Transcorp Hilton, Abuja.

CONFERENCE THEME INSURANCE INDUSTRY & FINANCIAL INCLUSION

It is a fact that the Nigerian Insurance industry is not yet able to contribute its quota to the nation's economic development due to multifarious reasons that would not be rehearsed here. In spite of the prevalence of risks in every human endeavor, necessitating the place of insurance as a risk management device, insurance still remains at the rung of expenditure priorities of individuals, corporate institutions and even government. This phenomenon has not only stultified the growth of the national economy, but also limited the scope, relevance and pivotal place the industry is expected to occupy in the economy. Although strident efforts are being continuously made by the industry through its regulatory bodies and constituent bodies, there are yet several grounds to cover.

The idea of financial inclusion mooted by government in line with practice in most dynamic countries of the world has continued to receive warm embrace by operators in the financial services sector, especially the insurance industry. To bring a sizeable proportion of Nigerian population to the financial conveyor belt would have positive effect on national economic growth and individual wealth. However, efforts to make this vision a reality requires synergy of all sectors to drive the process.

Happily, at this year's National Insurance Conference, invitations have been extended to frontline professionals in the financial services sector, operators in IT and Artificial Intelligence. The essence is for them to ventilate and evolve opinions and articulate road map for the industry and other sectors that would be present at the two-day conference.

CONFERENCE FEE: N70,000 (Seventy Thousand Naira Only)
Early birds before June 30, 2018 would pay N60,000.

FEE COVERS:

Welcome Cocktails, Refreshment Break, Group Lunch, Dinner, Conference Materials, as well as other attractions. Payments are to be made via drafts or cheques in favour of Chartered Insurance Institute of Nigeria/IICC or by transfer to the following bank account.
