ENVIRONMENTAL COMMITMENT

We offer a wide range of eco-friendly and recycled paper and card, the majority of which are Forest Stewardship Council (FSC) certified. This certification acts as a guarantee that the stock has come from forests managed to ensure long term timber supplies whilst protecting the environment and the lives of forest-dependent communities.

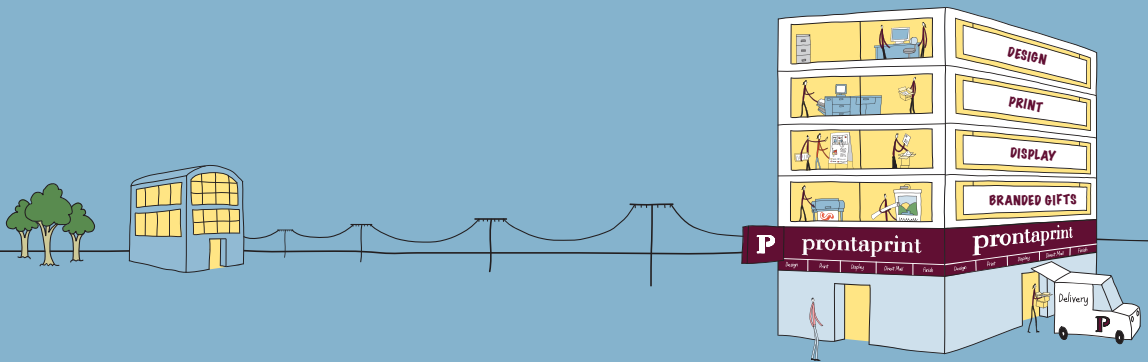

In addition to FSC stock we also offer carbon balanced paper. This is paper for which the carbon impact of production and the distribution process has been balanced, or offset, by the World Land Trust – an international conservation charity.

When you choose Carbon Balanced Paper you can include a unique logo on your print run: an instant, high-visibility seal that demonstrates your commitment to reducing your carbon impact and enhances your brand.
