

# ICANN Meeting Virtual Participation Guide

1 March 2021

---

## Get Started

- Virtual sessions at ICANN Public Meetings are conducted using Zoom.
- A Zoom account is not required, but you need the session Zoom link or Zoom Meeting ID to participate in the session.
- You can optimize your Zoom experience by downloading the Zoom application to your desktop.
- If you are participating via your mobile phone or tablet, you need the Zoom application on your device to access the session Zoom links.
- If using the Zoom application, please update to the most current version.

## Finding Session Zoom Links

- You can find the session Zoom link or Meeting ID in the ICANN Public Meeting [schedule](#). Under the **Schedule** tab, select Agenda.

- Click on an individual session and you will find remote participation links or Zoom Meeting IDs.

Schedule Listing Example: Zoom Links
<ul style="list-style-type: none"><li>• <b>Participation Links</b> Zoom Meeting Link: <a href="https://icann.zoom.us/j/94642077830">https://icann.zoom.us/j/94642077830</a> Zoom Meeting ID: <b>946 4207 7830</b> Zoom International Dial-In Numbers: <a href="https://icann.zoom.us/u/aeHgxySi8D">https://icann.zoom.us/u/aeHgxySi8D</a> Scribe – Closed Captioning: <a href="https://streamtext.net">https://streamtext.net</a></li></ul>

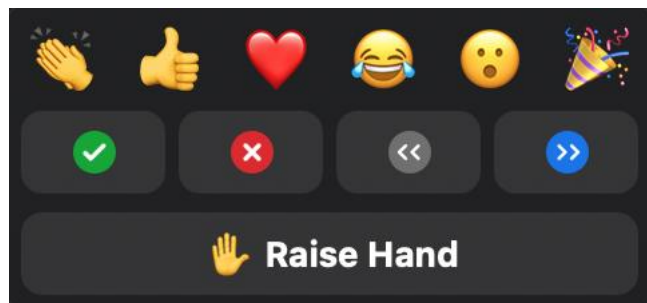

- To join a session from your desktop:
  - If you have downloaded the Zoom application, simply click on the Zoom link in the relevant session description.
  - If you have not downloaded the application, go to [zoom.us/join](https://zoom.us/join) and enter the Meeting ID. The ID code is available in the session description.
- To join a session from your mobile phone or tablet:
  - You need the Zoom application on your device to access the session. Once the application is on your device, simply click on the link in the relevant session description.

## Participating in the Session

- Make sure you are on mute when you enter the session. Your video will be off by default. You can control the mute and sharing settings in the meeting controls.

- Each session will be moderated by a Remote Participation Manager (RPM). The RPM will handle any Q&As and group interaction.
- Each session will handle questions differently. At the beginning of the session, the RPM will explain how to ask questions in the chat window or raise your hand to request to speak. You can access those functions by clicking on the “Reactions” icon located on the Zoom toolbar .

## Breakout Rooms

- Select sessions may utilize breakout rooms.
- Depending on the configuration you may be assigned a breakout room or you may self-select a breakout room to join.
- If asked to self-select, click on the ‘Breakout Rooms’ icon from the Zoom toolbar. It may be located under the ‘More’ option.
- Hover over the right side of the breakout room you wish to enter and select ‘Join.’

---

## Language Services

### Real-Time Transcription (RTT) and Zoom Closed Captioning (CC)

- Real-time transcription (RTT), also known as scribing, and Zoom closed captioning (CC) will be provided in English.
- If the session is being scribed by live captioners, you may also open the Scribe RTT link listed in the relevant session description on the [schedule](#).
- If the session is not being scribed by live captioners via RTT, Zoom’s automated real-time text service will be enabled.
- You can view the real-time text provided by Zoom by clicking the “CC” (closed captioning) icon on the toolbar.

Please note that the automated and live real-time text transcription might contain inaccuracies and is not an official record of the meeting. Also, real-time text might not be available for speech interpreted into other languages.

Official transcripts will be provided in English for all sessions. If a session was supported in other languages, official transcripts in those supported languages will be provided as well.

### Interpretation Service

- All sessions that include interpretation will be conducted using the Remote Simultaneous Interpretation (RSI) platform now integrated into Zoom. You can select the language of your choice by clicking on the “Interpretation” icon on the toolbar.
- This feature is only available for participants joining via the Zoom application using computer audio.
- Click on the “Interpretation” icon on the Zoom toolbar.

- Select the desired language.

- If you would like to ask a question or make a comment in one of the supported languages, raise your virtual hand in the Zoom platform.
- Select the language you will speak by clicking on the “Interpretation” icon on the toolbar.
- When called upon, unmute your microphone in Zoom. State your name for the record, the language you will speak, and ask your question or make your comment.
- Mute notifications from all other platforms or devices.
- When you are done speaking in the Zoom session, mute your audio, and listen to the language of your choice.
- Please note that if you will be speaking a language other than the language you are listening to, you must change your selection each time you speak to ensure interpretation can be heard by other participants.
- In the event a speaker does not select their language channel, they may still be heard by selecting **Unmute Original Audio**.

### Tips to Make the Most of a Virtual Meeting:

- Consider using a headset if you are planning to speak during a session. Headsets often have better microphones and sound quality than the built-in microphones and speakers in your laptop or mobile phone.
- State your name and affiliation for the record before you make your comment. Speak clearly, directly, and slowly. If you are reading a statement or a document, please pause between sentences.
- We are a global community and different cultures have different communication styles. Without the benefit of facial expressions and body language, misunderstanding can occur. Try to be succinct when interacting virtually to avoid miscommunications.
- Be aware that all ICANN Public Meeting sessions are subject to ICANN’s [Expected Standards of Behavior](#) and the [ICANN Community Anti-Harassment Policy](#).

- 
- We encourage you to stay connected after the meeting through news updates and regional newsletters. [Sign up here.](#)

# Zoom Streaming to YouTube

---

Select sessions will be streamed on YouTube to accommodate community members who may not have the bandwidth to effectively participate via Zoom. To ask a question, comment, or interact with presenters or other attendees, you will still need to utilize Zoom.

- If a session includes YouTube streaming, a link will be provided in the session description on the [schedule](#).
- To view the YouTube stream, click on the link listed in the session description and it will open in a browser.
- Ensure the volume on your device and within YouTube are not muted.
- Please note: The YouTube stream will not have simultaneous interpretation.
