**Checklist for AAPOR TI**

**Survey:** Nebraska Pre-election poll

<table>
<thead>
<tr>
<th>TI Disclosure Elements</th>
<th>Answers</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>1. Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.</strong></td>
<td>Emerson College</td>
</tr>
<tr>
<td><strong>2. The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.</strong></td>
<td>See Below</td>
</tr>
<tr>
<td><strong>3. A definition of the population under study and its geographic location.</strong></td>
<td>Likely Voters in Nebraska’s 2nd District</td>
</tr>
<tr>
<td><strong>4. Dates of data collection.</strong></td>
<td>October 29-30, 2020</td>
</tr>
<tr>
<td><strong>5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated.</strong></td>
<td>Data was collected using a list of 15,000 mobile numbers and 20,000 landlines provided by Aristotle Inc.</td>
</tr>
<tr>
<td><strong>6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.</strong></td>
<td>Aristotle, LLC</td>
</tr>
<tr>
<td><strong>7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.</strong></td>
<td></td>
</tr>
<tr>
<td><strong>8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.</strong></td>
<td>See #5</td>
</tr>
<tr>
<td><strong>9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.</strong></td>
<td>IVR and Online and SMS-to-web</td>
</tr>
</tbody>
</table>
10. Sample sizes (by sampling frame if more than one was used) and a
discussion of the precision of the findings. For probability samples, the
estimates of sampling error will be reported, and the discussion will
state whether or not the reported margins of sampling error or
statistical analyses have been adjusted for the design effect due to
weighting, clustering, or other factors. Disclosure requirements for
non-probability samples are different because the precision of
estimates from such samples is a model-based measure (rather than
the average deviation from the population value over all possible
samples). Reports of non-probability samples will only provide
measures of precision if they are
accompanied by a detailed description of how the underlying model was
specified, its assumptions validated and the measure(s) calculated. To
avoid confusion, it is best to avoid using the term “margin of error” or
“margin of sampling error” in conjunction with non-probability
samples.

The sample consisted of registered voters, n=806, with a Credibility
Interval (CI) similar to a poll's margin of error (MOE) of +/- 3.4%
percentage points.

A screening question was asked if the voter was registered and the
voting intention. If the respondent said they were not registered or
were not voting, they were
eliminated from the sample.

11. A description of how the weights were calculated, including the variables
used and the sources of weighting parameters, if weighted estimates are
reported.

The data was weighted by gender, age, education, party, race and
region based on 2016 voter turnout modeling. 2016 vote magnitude
was used but new voters were included based on their actual
sample and was based on Aristotle Voter turnout modeling.

12. If the results reported are based on multiple samples or multiple modes,
the preceding items will be disclosed for each. **Reviewer: Type NA if
not applicable.**

N/A

13. Contact for obtaining more information about the study.

emersonpolling@emerson.edu
1. When it comes to voting in the November election, which of the following best describes your intention?
   I do not plan to vote in the election (end)
   I already voted
   Voting early either by mail or in person (go to 3)
   Voting on election day (go to 3)
   Not sure how I will vote (go to 3)

2. Who did you vote for?
   Donald Trump (go to 5)
   Joe Biden (go to 5)
   Someone else (go to 5)

3. If the Presidential Election were held today, would you vote for Donald Trump or Joe Biden?
   Donald Trump (go to 5)
   Joe Biden (go to 5)
   Someone else (go to 5)
   Undecided (go to 4)

4. Which candidate are you leaning towards at this time?
   Donald Trump
   Joe Biden

5. If the election for US Congress were held today, would you vote for Republican Don Bacon or Democrat Kara Eastman?
   Republican Don Bacon (go to 7)
   Democrat Kara Eastman (go to 7)
   Someone else (go to 7)
   Undecided

6. Which candidate are you leaning towards at this time?
   Republican Don Bacon
   Democrat Kara Eastman

7. Who did you vote for in the 2016 election?
   Donald Trump
   Hillary Clinton
   Someone else
   Did not vote

8. What is your gender?
   Male
Female

9. What is your party registration?
   Not registered to vote
   Democrat
   Republican
   Independent or other

10. For statistical purposes only, can you please tell me your ethnicity?
    Hispanic or Latino of any race
    White or Caucasian
    Black or African American
    Asian-American or Pacific Islander
    Other or multiple races

11. What is your age range?
    18-29 years
    30-44 years
    45-64 years
    65 or more years

12. What is the highest level of education you have attained?
    High school or less
    Some college
    College graduate
    Postgrad or higher

13. Please select the type of area where you live
    Urban/city
    Suburban
    Rural

14. How much of a threat to public health in the United States do you believe Coronavirus is?
    Major threat
    Moderate threat
    Minor threat
    Not a threat

15. Do you approve or disapprove of the job Donald Trump is doing as President?
    Approve
    Disapprove
    Neutral or no opinion
16. When deciding for whom you will vote for President, which of the following is the most important issue?
   Climate change
   Social justice
   The economy
   Supreme Court
   COVID-19 response
   Healthcare
   Something else
