

To the reader:

The **Wheel of Faith Bible Study Guides** are intended to be a companion to the lectures. These guides will reinforce the concepts of the **Wheel of Faith** series. The Bible Study Guides use mostly the same Bible texts and concepts of the lecture series. And, as the lecture series, the intention of the Study Guides is to be diagnostic in nature so that the student may discover where they are on the **Wheel of Faith**, and for the purpose of deepening the experience of the Gospel in our daily lives.

These lessons are designed to be reflective and engage the heart as well as the intellect. The outcome of these studies, if genuinely engaged, will be an accurate knowledge of the Gospel that is evidenced by a transformative experience.
