Empathy training provides practical and powerful tools which help us to listen and understand others' emotions as well as communicate more effectively, especially during times of stress or anxiety. These strategies can be used with people of all ages and stages in life. We learn what empathy is and what it is not. We learn how to use body language and words for effectively connecting with others, and we also explore tangible ways that we use empathy with ourselves as well as with others. Sign up sheet in the foyer.
