It is that amazing time of year again! YES, ski season!!! I may be a tropical, ~~warm~~ hot weather kind of a gal, but there is something about hitting those ski slopes that I love. Just a few years back I remember loading onto my school's ski bus and heading up to White Pass for a day of outdoor snowy bliss. My friends and I would pack our lunches and Walkmans, bundle up, and start planning each run for the day. Back then there was only the two chair to take you up to the top of the slopes (Chair 2 now). They only open it these days when they are desperate and the other lifts are bursting beyond their running capacity. You would have to side step up the ramp just to get on. Then pray it wouldn't stop while you were over Execution because the chair was likely to bounce you up and down, up and down, in the air like 10 feet right where all you could see was that mighty cliff in front of you. Naturally there are no safety bars on the thing so you would have to cling to the center bar. And then you would pray some more that the wind didn't come up because the lift took you right along the top of the near highest point of the mountain, totally unprotected against the elements. Back then we lacked all those fancy, smancy face coverings like balaclavas. No, we went Western style with a bandana tied around our faces! The snow hitting the outside and warm breath hitting the inside turned them into frozen face shields while outside and into drippy messes once you returned into the warmth of the lodge.

All kidding aside, I loved school ski days! It was when I learned to ski. My friends and I had so much fun exploring the hillside together. I was not nearly as adventurous back then and stuck mostly to the green and blue runs...it was when my boys learned to ski/board that that all changed. They, too, learned to ski/board during school ski days! In no time at all, they were venturing off into the trees and down black diamonds uninhibited. If I wanted to ski with them at all I had no choice but to follow. It was soooooo much fun! Soon they were good enough to leave me in their powder trails. Thankfully I was not the only parent left all alone and somehow managed to always have a great day and developed some wonderful friendships along the way. I could tell you so many entertaining stories!

The first school ski day is next Thursday, Jan. 10<sup>th</sup>. Information went home earlier this week giving the details and prices. The more students we have going the better. Not only does it ensure the cheaper group rate, but it is a great chance for our kids to try something new, make some amazing memories, meet some new friends, and learn a skill that they can use for a lifetime.

If you have any questions or need more information, please feel free to call or come in and see me.
