

MEDICO STEP ONS

The ideal step on containers for hospitals, doctors' offices, patient rooms, medical and laboratory settings

- Complies with OSHA and OBRA requirements and NFPA Life Safety Code
- Piano hinged lid restraint mechanism prevents damage to walls and equipment
- Heavy-duty tubular push rods do not bend like competitive flat metal push rod mechanisms and provide positive leverage
- Quiet close dampener system prevents lid noise when lid closes
- Unique handle on the rear of the can makes it easy to move
- Large, oval shaped foot pedal is heavily reinforced to resist breakage and is easier to push from various operating angles
- Step-On foot pedal provides "hands free" waste disposal and effectively minimizes cross contamination
- Self-closing lid keeps odors in and provides maximum flame retardancy
- Internal retainer bands hold poly bags securely within the can
- Powder coated for maximum durability and easy cleaning
- Optional rigid plastic liners
